* For the Model No., insert the 12 digit number (for example, CF-M34CGFZKM) located on the bottom of the computer.

Introduction

Thank you for purchasing the Panasonic computer. Read the operating instructions thoroughly for proper operation of your new computer.

Illustrations and Terminology in this Manual

NOTE:	**NOTE** provides a useful fact or helpful information.
CAUTION:	**CAUTION** indicates a condition that may result in minor or moderate injury.
Enter :	This illustration means to press the [Enter] key.
Fn + **F5** :	This illustration means to press and hold the [Fn] key, then press the [F5] key.
[Start] - [Run]:	This illustration means to click [Start], then to click [Run]. For some applications, you may need to double-click.
☞:	Where to go for referred information.
☞ Reference Manual :	This illustration means to refer to the Reference Manual, which is available on your computer.
	Refer to page 16 on how to access this manual.

● Some of the illustrations in this manual may differ slightly in shape from the actual items in order to make the explanation easier to understand.
● If the user has logged on without the administrator authority, some functions may not be executable, and some screens may be not displayed as shown in this manual. If this happens, log on with the administrator authority to enable these functions.
● Confirm the latest information on optional products in catalogs, etc.

For U.S.A.

Federal Communications Commission Radio Frequency Interference Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
● Reorient or relocate the receiving antenna.
● Increase the separation between the equipment and receiver.
● Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
● Consult the Panasonic Service Center or an experienced radio/TV technician for help.

Warning

To assure continued compliance, use only shielded interface cables when connecting to a computer or peripheral. Also, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC RF Exposure Warning:

This computer is provided with PC Card slot that could be used with wireless transmitter(s), which will be specifically recommended, when they become available. Other third-party wireless transmitter(s) have not been RF exposure evaluated for use with this computer and may not comply with FCC RF exposure requirements.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment must be installed and operated in accordance with provided instructions and minimum 2.5 cm spacing must be provided between antenna and all person's body (excluding extremities of hands, wrist and feet) during wireless modes of operation.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Responsible Party: Matsushita Electric Corporation of America
One Panasonic Way
Secaucus, NJ 07094
Tel No:1-800-LAPTOP-5 (1-800-527-8675)

FCC Regulation Notice for modem
This equipment contains a FCC approved modem.

Manufacturer of modem: AMBIT Microsystems Corporation
Model No. T60M283.** (** = numbers or alphabet letters)

FC **Tested To Comply**
With FCC Standards
FOR HOME OR OFFICE USE

1. This equipment complies with CFR47 Part 68 rules. On the computer is a label that contains, among other information, the FCC registration number and ringer equivalence number (REN) for this equipment. If required, this information must be provided to the telephone company.
2. An FCC compliant telephone cord and modular plug is provided with this equipment. This equipment is designed to be connected to the telephone network or premises wiring using a compatible modular jack which is Part 68 compliant. See Installation Instructions for details.
3. The REN is used to determine the quantity of devices which may be connected to the telephone line. Excessive RENs on the telephone line may result in the devices not ringing in response to an incoming call. In most, but not all area, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact the local telephone company.
4. If your telephone equipment cause harm to the telephone network, the telephone company will notify you in advice that temporary discontinuance of service may be required. But if advice notice isn't practical, the telephone company will notify the customer as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary.
5. The telephone company may take changes in it's facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.
6. If trouble is experienced with this equipment, for repair or warranty information, please contact Matsushita Electric Corporation of America at DIAL TOLL FREE 1-800-LAPTOP5 (1-800-527-8675). If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.
7. There are no user serviceable parts contained in this equipment.
8. This equipment may not be used on coin service provided by the telephone company. Connection to party lines is subject to state tariffs.
9. The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device to send any message via a telephone fax machine unless such message clearly contains in a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent and an identification of the business or other entry, or other individual sending the message and the telephone number of the sending machine or such business, other entity, or individual. In order to program this information into your fax software, you should refer to the manual of the Fax software being used.

Read Me First

10. According to the FCC's electrical safety advisory, we recommend that you may install an AC surge arrestor in the AC outlet to which this equipment is connected. Telephone companies report that electrical surges, typically lightning transients, are very destructive to customer terminal equipment connected to AC power sources and that this is a major nationwide problem.

   "Caution: To reduce the risk of fire, use only No.26 AWG or larger telecommunication line cord."
   "ATTENTION: Pour réduire le risque d'incendie, utiliser uniquement des conducteurs de télécommunications 26 AWG ou de section supérieure."

Notice for the products using LCD

This product uses one or more fluorescent lamps containing a small amount of mercury. It also contains lead in some components. Disposal of these materials may be regulated in your community due to environmental considerations. For disposal or recycling information please contact your local authorities, or the Electronics Industries Alliance: <http://www.eiae.org/>

Important Safety Instructions

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

1. Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.
2. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
3. Do not use the telephone to report a gas leak in the vicinity of the leak.
4. Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

SAVE THESE INSTRUCTIONS

Information to the User

This product and your Health

This product, like other radio devices, emits radio frequency electromagnetic energy. The level of energy emitted by this product however is far much less than the electromagnetic energy emitted by wireless devices like for example mobile phones.

Because this product operates within the guidelines found in radio frequency safety standards and recommendations, we believe this product is safe for use by consumers. These standards and recommendations reflect the consensus of the scientific community and result from deliberations of panels and committees of scientists who continually review and interpret the extensive research literature.

In some situations or environments, the use of this product may be restricted by the proprietor of the building or responsible representatives of the organization. These situations may for example include:

● Using this product on board of airplanes, or

● In any other environment where the risk of interference to other devices or services is perceived or identified as harmful.

If you are uncertain of the policy that applies on the use of wireless devices in a specific organization or environment (e.g. airports), you are encouraged to ask for authorization to use this product prior to turning on the product.

Regulatory Information

We are not responsible for any radio or television interference caused by unauthorized modification of this product. The correction of interference caused by such unauthorized modification will be the responsibility of the user. We and its authorized resellers or distributors are not liable for damage or violation of government regulations that may arise from failing to comply with these guidelines.

Lithium Battery

Lithium Battery!

This computer contains a lithium battery to enable the date, time, and other data to be stored. The battery should only be exchanged by authorized service personnel.

Warning! A risk of explosion from incorrect installation or misapplication may possibly occur.

Precautions

The CF-M34 was developed based on thorough research into the real-world portable computing environments. Exhaustive pursuit of usability and reliability under harsh conditions led to innovations such has the magnesium alloy exterior, vibration damped hard disk drive and floppy disk drive, flexible internal connections. The CF-M34's outstanding engineering has been tested using the stiff MIL-STD- 810F (for vibration and shock) and IP (for dust and water) based procedures.

As with any portable computer device precautions should be taken to avoid any damage. The following usage and handling procedures are recommended.

Before putting the computer away, be sure to wipe off any moisture.

Avoid Radio Frequency Interference
Do not place the computer near a television or radio receiver.

Avoiding low-temperature burns
Avoid more than casual contact with any heat producing area of the notebook computer, AC adaptor, and any option or accessory you use with it. Even low heat, if warmer than body temperature, can cause a burn, if the skin is exposed to the heat source for a long enough period of time.

Avoid Magnetic Fields
Keep the computer away from magnets.
Data stored on the hard disk may be lost.

Keep Small Objects Away
Do not insert paper clips or other small objects into the computer.

Do Not Disassemble the Computer
Do not attempt to disassemble your computer.

Avoid Excessive Force on the Display
Do not apply excessive downward force on the display when it is completely opened, especially when plugs and/or cables are connected to the rear of the computer.

Precautions (Battery Pack)

● Care should be exercised with regard to the following in order to avoid the possibility of overheating, fire or damage.

Avoid Heat
Do not throw the battery pack into a fire or expose it to excessive heat.

Keep Articles Away
Do not place the battery pack together with articles such as necklaces or hairpins when carrying or storing.

Do Not Disassemble
Do not insert sharp objects into the battery pack, expose it to bumps or shocks, deform, disassemble, or modify it.

Do Not Short
Do not short the positive (+) and negative (-) contacts.

Avoid Extreme Heat, Cold and Direct Sunlight
Do not charge, use or leave the battery pack for extended periods where it will be exposed to direct sunlight, in a hot place (in an automobile on a sunny day, for example), or in a cold place.

Do Not Use With Any Other Computer
The battery pack is rechargeable and was intended for the specified computer or charger. Do not use it with a computer other than the one for which it was designed.

Do Not Put into a Microwave
Do not put the battery pack into a microwave oven or a pressurized chamber.

Stop Using
Should the battery emit an abnormal odor, become hot to the touch, become discolored, change shape, or become in any way different from normal, remove it from the computer or charger and stop using it.

● Do not touch the terminals on the battery pack. The battery pack may no longer function properly if the contacts are dirty or damaged.
● Do not expose the battery pack to water, or allow it to become wet.
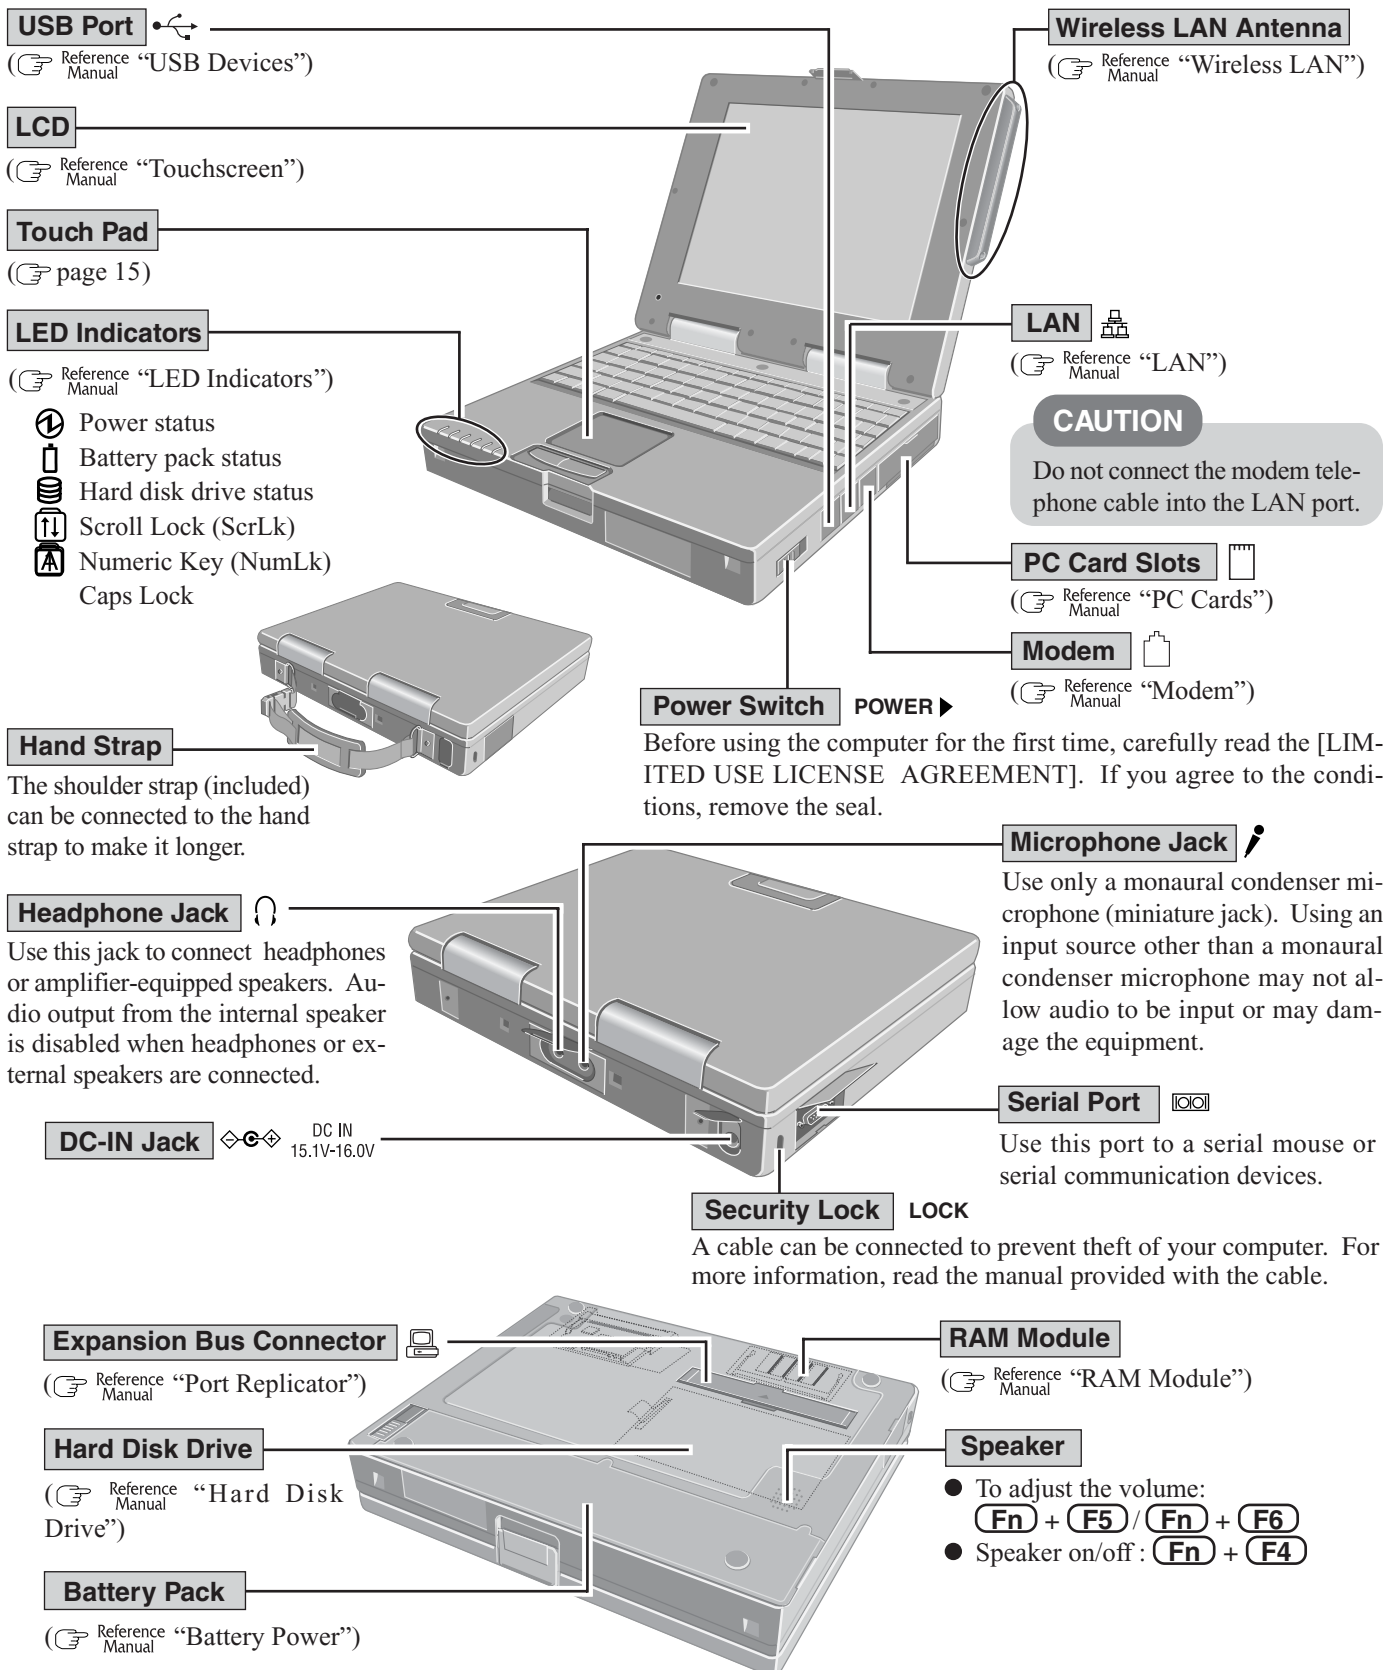

Read Me First

Precautions (Battery Pack)

● If the battery pack will not be used for a long period of time (a month or more), charge or discharge (use) the battery pack until the remaining battery level becomes 30% to 40% and store it in a cool, dry place.

● This computer prevents overcharging of the battery by re-charging only when the remaining power is less than approx. 95% of capacity.

● The battery pack is not charged when the computer is first purchased. Be sure to charge it before using it for the first time. When the AC adaptor is connected to the computer, charging begins automatically.

● Should the battery leak and the fluid get into your eyes, do not rub your eyes. Immediately flush your eyes with clear water and see a doctor for medical treatment as soon as possible.

NOTE

● The battery pack may become warm during recharging or normal use. This is completely normal.

● Recharging will not commence if internal temperature of the battery pack is outside of the allowable temperature range (0 °C to 50 °C {32°F to 122 °F}). (☞ Reference Manual "Battery Power") Once the allowable range requirement is satisfied, charging begins automatically. Note that the recharging time varies based on the usage conditions. (Recharging takes longer than usual when the temperature is 10 °C {50 °F} or below.)

● If the temperature is low, the operating time is shortened. Only use the computer within the allowable temperature range.

● This computer has a Battery Lifetime priority mode function that prevents the deterioration of the battery in high temperature environments or when using the fully charged battery pack for a long period of time. (☞ Reference Manual "Battery Power") If the Battery Lifetime priority mode is enabled, the full charge capacity of the battery drops to 65% or below.

● The battery pack is a consumable item. If the amount of time the computer can be run off a particular battery pack becomes dramatically shorter and repeated recharging do not restore its performance, the battery pack should be replaced with a new one.

● When transporting a spare battery inside a package, brief-case, etc., it is recommended that it be placed in a plastic bag so that its contacts are protected.

● Always power off the computer when it is not in use. Leaving the computer on when the AC adaptor is not connected will exhaust the remaining battery capacity.
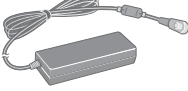

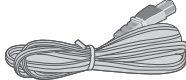

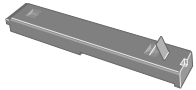

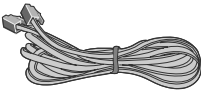

Names and Functions of Parts

USB Port ⟨⟩

RECYCLE RBRC 1-800-822-8837 Li-ion   A lithium ion battery that is recyclable powers the product you have purchased. Please call 1-800-8-BATTERY for information on how to recycle this battery.

7

First-time Operation

Read the steps below to help you learn what parts are included, and to gain an understanding of some basic computer-related operations.

1 Confirm the inclusion of all parts.

Make sure the parts shown in the figure have been supplied. If any of these items are missing or are not working properly, contact Panasonic Technical Support.

AC adaptor 1	AC Cord 1	Battery Pack 1
Model No : CF-AA1653		Model No :CF-VZSU15A
Modem Telephone Cable 1	**Soft Cloth** 1	**Stylus** 1
		(☞ Reference Manual "Touchscreen")
Strap 1	**Product Recovery CD-ROM** 3	**Operating Instructions** (This book)* .... 1 **Windows® Book** 1

*If additional instructions are included with the computer, be sure to read them. It may be necessary to perform additional operations during the following procedures.

2 Read the LIMITED USE LICENSE AGREEMENT (☞ page 28)

Before removing the seal covering the power switch, read the LIMITED USE LICENSE AGREEMENT.

3 Insert the battery pack

① Turn your computer over.

② Unlock the latch.

③ Open the cover.

Latch   **Cover**

③

②

④ Put a battery pack into the computer.

Battery Pack

④

CAUTION

Do not touch the terminals on the battery pack and the computer. The battery pack may no longer function properly if the contacts are dirty or damaged. Also, the computer may not operate properly.
⑤ Slide the battery pack inward until it is firmly in place.

⑤

CAUTION

Be sure the battery pack is properly connected to the connector.
⑥ The cover is closed by inserting the hook at the right end (see illustration) into the groove.

⑦ Close the cover.

⑧ Lock the latch into place.

CAUTION

● Confirm that the latch lock is correctly in place. If you carry your computer without the latch lock in place, the battery pack may fall out.
● Before using the battery pack, carefully read "Precautions (Battery Pack)" (☞ page 5-6).

DC-IN Jack ◇-c-◇   DC IN 15.1V-16.0V

DC Plug

4 Connect your computer to a power outlet

CAUTION

● Be sure the AC adaptor is connected until completing the first-time use operation.
● When using the computer for the first time, do not connect any peripheral device except the battery pack and AC adaptor to the computer.

Handling the AC adaptor
● Do not twist or pull the AC power cord forcefully. Doing so may damage the connections.
● Use only the specified AC adaptor with your computer. Using an AC adaptor other than the one supplied might damage the battery and/or the computer.
● When the DC plug is not connected to the computer, disconnect the AC cord from your AC wall outlet.
● Problems such as sudden voltage drops may arise during periods of thunder and lightning. Since this could adversely affect your computer, an uninterruptible power source (UPS) is highly recommended unless the battery pack is installed.

Latch

5 Open the display
① Lift up the latch.

② Lift open the display.

Power Indicator ①
Power Switch POWER ▶

6 Turn your computer on
Slide the power switch and hold it for approximately one second until the power indicator turns on before releasing it.

CAUTION

● Do not slide the power switch and hold it for more than four seconds; this will cause the power to be turned off forcibly.
● Do not slide the power switch repeatedly.
● Once the computer is powered off, you must wait at least ten seconds before powering it on again.

7 Setup Windows

Moving the cursor (⟨⟩) or clicking buttons can be performed with the touch pad.

> **NOTE**
>
> The touchscreen does not work properly during the Windows setup.

> **CAUTION**
>
> Do not press any keys or touch the touch pad until [Windows XP Professional Setup] is displayed.

① At [Welcome to the Windows XP Setup Wizard], select [Next].
② After reading the agreement, select [I accept this agreement] or [I don't accept this agreement], then select [Next].

> **NOTE**
>
> If [I don't accept this agreement] is selected, the Windows setup will be aborted.

③ Select settings for your region, then select [Next].
④ Enter your name and organization and then select [Next].
⑤ Enter your computer name and administrator password and then select [Next].

> **CAUTION**
>
> Remember this password! If the password is forgotten, Windows cannot be operated.

⑥ Enter the correct date, time and time zone, then select [Next].
   The computer will restart.

> **NOTE**
>
> It will take some time for the computer to restart. Wait, and do not press any keys, or touch the touch pad, etc.

⑦ Enter your administrator password and select ➡.
   Wait until the hard disk drive indicator (🖴) has turned off.

8 Calibrate the touchscreen

① Select [Start] - [Control Panel] - [Printers and Other Hardware] - [Mouse] - [TouchScreen] - [Calibration].
② Touch the "+" mark on the calibration screen with the stylus (included) for about one second.
③ After the calibration procedure is executed (e.g., after the nine "+" marks are touched), the procedure ends when **Enter** is pressed.
④ Select [OK].

9 Create a new account

① Select [Start] - [Control Panel] - [User Accounts] - [Create a new account].
② Enter a name for the new account, then select [Next].
③ Select [Computer administrator], then select [Create Account].
④ <When you want to create a password for the new account>
   Select the new account you have created and select [Create a password].
   Follow the instructions on the screen to create a password.
⑤ Select [Start] - [Turn Off Computer] - [Restart] to restart the computer.

CAUTION

Remember this password! If the password is forgotten, Windows cannot be operated. You can create a password reset disk beforehand (☞ below).

NOTE

When creating a new user account:
- If you make mail settings, create password reset disks (☞ below), or conduct other related operations before creating the user account, you will be unable to use any previous mail history or settings.
- When you create the first new account, you can only select [Computer administrator].
  Once a "Computer Administrator" account has been created, you can create additional limited user accounts.
  Note also that only the added user account will be displayed in the Welcome screen. The account for the administrator created during Windows setup will not be displayed.

10 Start up Windows Media Player

Log on with the administrator authority, and select [Windows Media Player] on the screen.
After this, start up the application following the instructions on the screen. During this process, you will be required to agree to the license agreement.
For Windows Media Player, it is necessary to agree to the license agreement for each account created.
  ● If [I Decline] is selected or a window is closed without any decision being made in the license agreement, no icons on the desktop may be selected. In this case, restart the computer.

NOTE

If you use the wireless LAN, be sure to refer to the Reference Manual's "Wireless LAN".

This concludes the first-time use operation guidelines.

Information for Windows XP

● Depending on the Windows settings, installed applications, and drivers, menus and other displays may differ, or some functions (such as use of the password reset disk) may be inoperable.

● You can select Classic view for the Control Panel or select the Classic Start menu. You can also change the way a user logs on or off.
The procedure in this manual uses the method of the Windows XP default setting (not Classic Start menu etc.).

● **Resetting the password**
Windows XP has a function to reset a forgotten password.
To use this function, you need to create a password reset disk beforehand following the steps below.
  1 Select [Start] - [Control Panel] - [User Accounts].
  2 Select [Prevent a forgotten password] from the [Related Tasks] menu of the account you have logged on to and create a password reset disk following the on-screen instructions.
  Store the password reset disk in a safe place.
    • Only the logon password for each account can be reset.
      The password set in the Setup Utility cannot be reset.

# Starting Up/Shutting Down

Starting Up

Latch

1 Open the display
① Lift up the latch.

② Lift open the display.

Power Indicator ①

Power Switch POWER ▶

2 Turn your computer on

Slide the power switch and hold it for approximately one second until the power indicator turns on before releasing it.
CAUTION

- While booting, avoid the following until the hard disk drive indicator (🖴) has turned off.
  - Connecting or disconnecting the AC adaptor.
  - Touching the power switch.
  - Performing any keyboard, touch pad, touchscreen, or external mouse operations.
  - Closing the display.
- Once the computer is powered off, you must wait at least ten seconds before powering it on again.
- When the CPU temperature rises, the computer may not power on to prevent the CPU from overheating. Should this happen, allow the computer to cool down then switch the power on again.
  If the computer still does not power on, contact Panasonic Technical Support.

NOTE

When the power is turned on, sometimes the message "Warming up the system" is displayed or the battery indicator alternately blinks green and orange, and start-up takes longer than usual (a few minutes or more). This function is designed to prevent hard disk drive malfunctions that may occur at low temperatures. Please wait for the computer to start up.

● If [Enter Password] is displayed

Enter your password* and press **Enter** . (☞ Reference Manual "Security Measures")

| Enter Password [   ] |

The correct password → **Will Start**

Three incorrect attempts
or
No password for about a minute → **Will Not Start (Power off)**

* Supervisor Password or User Password set in the Setup Utility (not the Windows password).

● When an application or file that was previously displayed appears on your screen

The standby or hibernation mode has been set (☞ Reference Manual "Standby/Hibernation Functions").

3 Log on to Windows

After confirming that the hard disk drive indicator (▤) has turned off, select the user and input the password, then select ▣. Until the correct password is entered, the computer will not operate.

4 Select your application

You are able to start working on your computer.

NOTE

● The power saving function is factory set, so if there is no input from a key, the touch pad, the touchscreen or an external mouse (when one is connected) for a certain interval of time, the power to the LCD and hard disk may be turned off. The LCD will resume operation when the touch pad, the touchscreen or an external mouse (when one is connected) is used or a key is pressed.

The power to the LCD may be turned off even when an application software is being installed. In this case, because it is conceivable that a selection dialog box will be shown, do not press **Space** or **Enter** to attempt to resume from this condition as doing so may trigger a selection, but instead, press a key unrelated to the direct triggering of a selection, like **Ctrl**.

In addition, when the computer is left alone, it automatically enters the standby or hibernation mode (☞ Reference Manual "Standby/Hibernation Functions"). The computer will resume by sliding the power switch.

● When switching to a different user with the Fast User Switching function, it may not be possible to set the settings of the display. In this case, log off all users, and try the operation once more. If the problem persists, restart the computer.

Usage Example
The hand strap is convenient for computing while standing.
Adjust the length of the belt so that the computer does not fall by mistake, and firmly hold the computer when using it.

CAUTION

Do not add a lot of weight to the hand strap. The hand strap may accidentally come loose from the computer.

Starting Up/Shutting Down

Shutting Down (power off your computer)

This procedure is for shutting down the computer without using the standby or hibernation function (Reference Manual "Standby/Hibernation Functions").

1 Save important data and close each application

2 Select [Start] - [Turn Off Computer]

3 Select [Turn Off]
Your computer will power off automatically.

● **Restarting your computer (without shutting down)**

Select [Restart].

CAUTION

Do not do the following during the shutdown/restart procedure.
• Connecting or disconnecting the AC adaptor.
• Touching the power switch.
• Performing any keyboard, touch pad, touchscreen, or external mouse operations.
• Closing the display.

NOTE

● **To shut down using the keyboard,**
Press [⊞], [U], and select [Turn Off] with [→] [←] [↑] [↓], then press [Enter].
● **To quickly resume computer operation after shutting down,**
The standby or hibernation function is available (Reference Manual "Standby/Hibernation Functions").
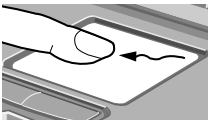

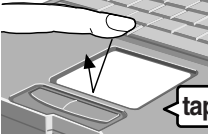

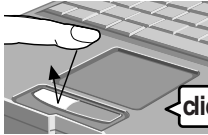

### 4 Close the display until the latch clicks into place

14

Touch Pad (Basic Operation)

Work Surface

Right Button

**Left Button**

Use the touch pad to move the cursor on the display and perform normal computer operations. For instructions on how to operate, refer to ^{Reference Manual} "Touch Pad (Advanced)".

> **CAUTION**
>
> By design the touch pad is to be used with a fingertip only. Therefore, do not use any implement which causes damage on the work surface.

Function	Touch Pad Operation
Moving the Cursor	Move the tip of your finger lightly over the surface.
Tapping/Clicking	or — tapping / clicking
Double-Tapping/ Double-Clicking	or — double-tapping / double-clicking
Dragging	or Two quick taps, but on the second tap leaving your finger down (applying pressure) and moving it on the work surface. / While holding down the button, moving your finger on the work surface.

Handling the Touch Pad

● If a key combination such as [Fn] + [F5] is used while the pad is being touched, the function of the key combination will not work. In addition, it is possible that control of the cursor will be lost and the cursor will not show proper movements. In such cases, the computer has to be restarted by using the keyboard (e.g., [⊞]).

● Do not place any object on the work surface or press down forcefully with sharp-pointed objects (e.g., nails) or hard objects that can leave marks (e.g., pencils and ball point pen).

● Try to avoid having any harmful substances such as oil, come in contact with the touch pad. The cursor may not work properly in such cases.

● **When the touch pad becomes dirty:**
Wipe to remove dirt by using a dry soft cloth such as gauze or a soft cloth first applied with detergent diluted with water and then thoroughly wrung.
Do not use benzene, thinner, or rubbing alcohol. Doing so may adversely affect the surface, e.g., discoloration. In addition, do not use commercially-available household cleaners and cosmetics, as they may contain components harmful to the surface.

Operation

15

Reference Manual

The Reference Manual and the Important Tips can be accessed on your computer. When a printer is connected, these manuals can also be printed.

● The Reference Manual explains functions for you to make greater use of the computer, such as how to add peripheral devices, how the Setup Utility works, and other useful information. (Refer to the cover of this manual for a list of the main contents included.)

● Important Tips provides information on how to maximize use of the battery pack, which is necessary for computing away from your home or office.
It also offers helpful explanations on how to use the touchscreen more effectively.

Opening the Reference Manual or Important Tips

● **Reference Manual**
Select [Reference Manual] in [Start]

● **Important Tips**
Select 📑 on the desktop

Important Tips can also be accessed from the following menu.
Select [Important Tips] in [Start] - [All Programs] - [Panasonic] - [On-Line Manuals].

When the Reference Manual or Important Tips is started up for the first time, the License Agreement of the Acrobat Reader may be displayed. If it is displayed, after reading the agreement, select [Accept] to access the Reference Manual or Important Tips.
Refer to Acrobat Reader Help to use the Acrobat Reader.

NOTE

● Illustrations may be difficult to view depending on the magnification. If the illustration is too small, magnify the display.
● The characters in PDF files (such as the Reference Manual) may be difficult to read depending on the Acrobat Reader settings and the Windows Desktop settings. In such cases, change the Acrobat Reader settings with the following procedure.
  1 Start up Acrobat Reader.
  2 Select [Edit] - [Preferences] - [Accessibility], and then set [Color Scheme] to [Use colors specified in document].
● When the taskbar is hidden at the bottom portion of Acrobat Reader, set the maximum display window size.
● If a printer is connected, we recommend printing pages. The illustrations and display samples may not print with a high quality.

Operation

Useful Information

Usage Environment

● Environment
● In use: Temperature: 5 °C to 35 °C {41 °F to 95 °F}
                 Humidity   : 30% to 80% RH (No condensation)
Not in use: Temperature: -20 °C to 60 °C {-4 °F to 140 °F}
                 Humidity   : 30% to 90% RH (No condensation)

> **NOTE**
>
> Only use the computer within the allowable temperature range.
> When the computer is left powered on in a low temperature environment, set [Turn off hard disks] to [Never] in the following menu to avoid damage to the hard disk drive.
> [Start] - [Control Panel] - [Performance and Maintenance] - [Power Options] - [Power Schemes]

● Places not to use your computer
● Such areas may result in damage to the computer.
  Areas with electronic equipment
  These areas may interfere with your display or cause your computer to produce strange sounds.
  Areas with extremely high/low temperatures
● Do not leave things near the computer that are sensitive to heat. During operation, the computer may become warm.
● Before putting the computer away, be sure to wipe off any moisture.

Handling
● This computer has been designed so as to minimize shock to the LCD and hard disk drive, the leakage of liquid (e.g., water) on to the keyboard, etc., but no warranty is provided against such trouble. Therefore, as a precision instrument, be extremely careful in the handling.
● Do not drop or hit your computer against solid objects.
● Do not carry your computer when it is on.
● Remove all external devices, cables, and PC Cards sticking out of the computer (see the figure on the left) before transporting the computer.
● We recommend preparing a fully charged battery (and optional charger, if possible).
  When transporting spare batteries inside a package, briefcase, etc., it is recommended that the batteries be stored in a plastic bag.
● Do not place the computer upright or allow it to tip over. When the computer receives extremely strong shock after falling, the hard disk or floppy disk drive, etc., may become inoperable.
● Do not carry the computer while the display is open, or carry it by gripping the display.
● Do not put anything (e.g., a piece of paper) between the display and keyboard.
● Always carry your computer with you when traveling. Never check it in with luggage. For use of the computer inside an aircraft, we recommend asking the airlines regarding their policy on this issue.
● It is a good idea to make backup copies on disks and carry them with you.
● Do not leave a disk in the drive while transporting your computer.

Operation

17

Useful Information

Maintenance

Touch Pad
☞ page 15
Display
Use the Soft Cloth included with the computer. (For more information, refer to "Suggestions About Cleaning the LCD Surface" that come with the Soft Cloth.)
If the Protective Film becomes dirty or damaged, it may be time to replace your Protective Film. The Protective Film is a disposable item. To find out the model number of your Protective Film, contact Panasonic Technical Support. (For more information, refer to the "Operating Instructions" that come with the Protective Film.)

> **CAUTION**
>
> Do not touch or use a touchscreen before you re-attach a Protective Film, as you may leave a mark or a scratch on the touchscreen.

Areas excluding the display
Wipe these areas with a soft cloth, after applying water or detergent diluted with water to the soft cloth and firmly wringing out excess water.

> **CAUTION**
>
> ● Do not use benzene, thinner, or rubbing alcohol. Doing so may adversely affect the surface, e.g., discoloration. In addition, do not use commercially-available household cleaners and cosmetics, as they may contain components harmful to the surface.
> ● Do not directly add or spray water or detergent. If liquid enters the inside of the computer, it may cause it to work improperly or be damaged.

Saving Data on the Hard Disk

● **Do not expose your computer to shock.**
Use care when handling your computer, shock may damage your hard disk or make your software applications and data unusable.
● **Do not power off your computer while software applications are running or hard disk drive indicator (▤) is on.**
Properly shut Windows down to avoid problems.
● **Save all valuable data to floppy disks, etc.**
Backing up data to floppy disks, etc. will limit damage should trouble occur to your computer or should you inadvertently change or erase data.
● **Use the security function for all important data.** (☞ Reference Manual "Security Measures")

Hard Disk Lock

When the Hard Disk Lock is set to [Enable], it is impossible to read/write data from/to the hard disk when the hard disk is installed in a different computer, since a password is also set for the hard disk. When the hard disk is returned to the original computer, you can read and write data as before. In this case, however, make the settings in the Setup Utility exactly the same as they were before the hard disk was removed. (Note that this Hard Disk Lock does not guarantee complete protection of data.) (☞ Reference Manual "Security Measures")

Operation

Computer Viruses

Users are advised to purchase the latest versions of virus protection software and use them regularly.
We recommend you run the software:
• After booting your computer.
• After receiving data.
We recommend that you check data received on disks or from external sources, such as data downloaded from the Internet, e-mail, etc. (For compressed files, uncompress them before running a check).

When Using Peripheral Devices

Pay strict attention to the following points to avoid damage to the computer, peripheral devices, cables, etc. Also, in addition to following this manual and the Reference Manual, carefully read the instruction manuals for the peripheral devices being used.
● Use only peripheral devices that conform to the computer's specifications.
● Connect the devices properly, paying close attention to the condition and position of the connectors.
● If a connection cannot be made easily, do not apply undue force; check once more to confirm the condition and position of the connector (alignment of pins, etc.) .
● If the connector has holding screws, fasten the screws firmly.
● Do not carry the computer with cables attached, and do not pull on the cables forcefully.

Wireless LAN

● **To prevent theft of data or unauthorized access to the hard disk via a wireless LAN**
If you plan to use wireless LAN functions, we recommend that you do so only after making the appropriate security settings, such as for data encryption.

Windows Update

You can use the latest patches and service packs for Windows with the following menus.
Do not apply "Driver Update" even if a message to update a driver appears. If a driver update is required, contact Panasonic Technical Support.
[Start] - [All programs] - [Windows Update]

When Changing Hard Disk Partitions

When using the hard disk backup function (page 29), do not divide up the hard disk before creating a backup region. If you do this, the backup region cannot be created. Divide into the partition when the backup region is created.

When Disposing of or Transferring Ownership of This Device

When disposing of or transferring ownership of this device, erase all data on the hard disk in order to prevent the theft of hard disk data. Even if you delete data or initialize the hard disk through normal Windows commands, data can still be read using special software. In order to erase all data, either have the data erased by a specialist (at a charge) or use the hard disk data erase utility (included) (page 33). (Note that this hard disk data erase utility does not guarantee that data will be completely erased.)
Also, note that if you transfer ownership of this device without deleting commercial software that you have installed to the hard disk, you may be in violation of the licensing agreement for that software.

List of Error Codes

When turning on the computer, if one of the following error codes or messages is displayed, follow the instructions shown below. If the problem persists, or if the error code or message displayed is not shown here, contact Panasonic Technical Support.

Error Code/Message	Action
Invalid system disk. **Replace the disk, and then press any key**	● If a floppy disk is set in the floppy disk drive, remove the disk and press any key. ● If a device is connected to the USB port, disconnect the device, or run the Setup Utility and set [Legacy USB Support] in [Advanced] menu to [Disable].
0211: Keyboard error	● If an external keyboard is connected, disconnect these devices.
0251: System CMOS checksum bad - Default configuration used	An error has occurred in the memory that stores the Setup Utility settings. This error occurs when the memory content is changed through some inadvertent operation by a program or other function. ● Run the Setup Utility and load the default values, then change the settings to the appropriate values as needed. ● If the problem persists, the internal clock battery may need to be replaced. Contact Panasonic Technical Support.
0271: Check date and time settings	The data and time setting are incorrect. ● Run the Setup Utility and set the date and time correctly. ● If the problem persists, the internal clock battery may need to be replaced. Contact Panasonic Technical Support.
0280: Previous boot incomplete - Default configuration used	Startup has failed repeatedly, so the Setup Utility settings have been returned to their default values, and the computer has been restarted. ● Run the Setup Utility and load the default values, then change the settings to the appropriate values as needed.
02B0: Diskette drive A error	● Disconnect the floppy disk drive and reconnect it. Make sure the drive is secured correctly.
0613: Serial Port[1] configuration changed **0614: Serial Port[1] config. error - device disabled** **[1] The port name, such as A or B, is displayed, indicating the conflicting ports.**	I/O address and IRQ settings are in conflict. ● Run the Setup Utility and change the settings in [Advanced] menu so there is no port conflicts.
Press <F1> to resume, <F2> to Setup	● Write down the error details and press ⟨F2⟩ to run the Setup Utility. Confirm the settings, and change the settings to the appropriate values as needed.
Operating System not found	The OS is not properly installed on the floppy disk or the hard disk that you are trying to boot from. ● If the computer cannot be booted from the floppy disk, check the floppy disk drive to ensure that the disk is in fact bootable, and change it to another if not. ● If the computer cannot be booted from the hard disk, confirm whether the hard disk is properly recognized in [Information] menu of the Setup Utility. If the hard disk is recognized, perform the reinstallation procedure. If not, contact Panasonic Technical Support. ● If a device is connected to the USB port, disconnect the device, or run the Setup Utility and set [Legacy USB Support] in [Advanced] menu to [Disable].

● **To run the Setup Utility**
1 Restart the computer.
2 Press ⟨F2⟩ while [Panasonic] boot screen is displayed soon after the computer begins the startup procedure.

Dealing with Problems (Summary)

When a problem occurs, refer to this page. The "Reference Manual" also contains detailed information. If a problem appears to be related to a software application, read the software related manual. If you still cannot troubleshoot the problem, contact Panasonic Technical Support. You can use the PC Information Viewer to check the computer's usage status. (☞ Reference Manual "Dealing with Problems (Advanced)")

● Starting Up

The power indicator or battery indicator is not lit	● Check the cable connection for the AC adaptor. ● Check to see if a fully charged battery is properly installed. ● Remove the battery pack and disconnect the AC adaptor, then connect them again.
The computer does not operate when a USB device is connected	The computer may not operate when certain USB devices are connected. Disconnect the USB device, or set [Legacy USB Support] to [Disable] in [Advanced] menu of the Setup Utility.
[Enter Password] is displayed	Input your Supervisor Password or User Password. If you have forgotten it, contact Panasonic Technical Support.
POST Startup Error(s) is displayed	☞ page 20
Windows startup, or an operation is extremely slow	Press **F9** in the Setup Utility (☞ Reference Manual "Setup Utility"). This will restore the Setup Utility's settings to their default values (except the password settings). Then, the Setup Utility must be run once again for you to input the appropriate operating environment settings. (The processing speed depends on the application software used, so this operation may not cause the processing speed to increase.)
The date and time are incorrect	● You can set the date and time using the following menu. [Start] - [Control Panel] - [Date, Time, Language, and Regional Options] - [Date and Time] ● When the computer is connected to a LAN, confirm the date and time of the server. ● If you continue to experience problems, the internal battery maintaining the clock may need to be replaced. Contact Panasonic Technical Support. ● When the computer is connected to a LAN, confirm the date and time of the server. ● This computer will not correctly recognize the date and time starting from the year 2100 A.D.
When resuming from the standby or hibernation mode, [Enter Password] does not appear even if a password has been set in the Setup Utility	Even when a password has been set in the Setup Utility, [Enter Password] does not appear when the computer resumes from the standby or hibernation mode. If you want to use the security function when using the standby or hibernation mode, use the Windows password as follows: *1* Select the account to change in [Start] - [Control Panel] - [User Accounts] and set the password. *2* Add the check mark for [Prompt for password when computer resumes from standby] in [Start] - [Control Panel] - [Performance and Maintenance] - [Power Options] - [Advanced].
When the administrator password is forgotten	If you have created a password reset disk (☞ page 11), a message is displayed when you fail to correctly enter the password. Follow the message's instructions and set the password again by using the password reset disk. If you have not created a password reset disk, after reinstalling, setup Windows and then set the password again.

When the previous item is not the cause	● Press **F9** in the Setup Utility (☞ Reference Manual "Setup Utility"). This will restore the Setup Utility's settings to their default values (except the password settings).
	● Try removing all peripheral devices.
	● Check a disk error using the following procedure.
	  1 Select [Local Disk(C:)] with the right button in [Start] - [My Computer], and select [Properties].
	  2 Select [Tools] - [Check Now].
	  3 Select [Start] after selecting required items in [Check disk options].
	● At startup, hold down **F8** when [Panasonic] boot screen disappears, and release your finger when the Windows Advanced Options Menu is displayed. Start the computer in Safe Mode, and confirm the details of the error.

Troubleshooting

Dealing with Problems (Summary)

● **Display**

No display after powering on	● When there is no display to an external display, • Check your cable connection to the external display. • Confirm your display is powered on. • Check the settings for your external display. ● The display destination may be set to the external display. Try changing the display destination by pressing [Fn]+[F3]. If you want to switch the display destination repeatedly by pressing [Fn]+[F3], make sure that the display destination has switched completely each time before pressing [Fn]+[F3] again.
The power has not been turned off, but after a certain period of time, there is no display	● Has the computer been set to the power-saving mode? To resume operation of your computer from the condition the power of the display is off (for energy conservation purposes), press any key unrelated to the direct triggering of a selection, like [Ctrl]. ● To save power, your computer may have automatically entered the standby mode (power indicator blinks green) or hibernation mode (power indicator turns off). In such cases, slide the power switch.
When the battery pack is used, the screen is darker than when the AC adaptor is connected	Press [Fn]+[F2] and adjust the brightness. Note, however, that when the brightness is increased, the battery running time will become shorter. Brightness can be set to separate levels for when the AC adaptor is connected and when it is disconnected.
An afterimage appears (e.g., green, red, and blue dots remain on the display) or there are dots not displaying the correct colors	● If an image is displayed for a prolonged period of time, an afterimage may appear. This is not a malfunction. The afterimage will disappear when a different screen is displayed. ● High-precision and advanced technologies are necessary in the production of color liquid crystal displays (color LCDs). Therefore, if 0.002% or less of the picture elements either fail to light or remain constantly lit (that is, more than 99.998% of elements are functioning properly), no defect is considered to exist.
The screen becomes disordered	Changing the number of colors and resolution of the display may affect the screen. Restart the computer.
The external display no longer displays properly	When an external display not compatible with the power saving mode is used with the computer, the display may not function correctly when the computer enters the power saving mode. In such cases, turn off the power to the external display.
Resolution or the number of colors of the display changes	After the display destination of the screen is switched with [Fn]+[F3], the resolution or number of colors of the display may change. Set the display again.
During simultaneous display, one of the screens becomes disordered	● Try changing the display by pressing [Fn] +[F3]. ● If you continue to experience problems, try changing the display destination in the following menu. [Start] - [Control Panel] - [Other Control Panel Options] - [Intel(R) Extreme Graphics] - [Devices] ● When the [Command Prompt] is set to "Full Screen" by pressing [Alt]+[Enter], the picture is displayed on one of the screens only. When the window display is restored by pressing [Alt]+[Enter], the picture is displayed on both screens.
When an MPEG file is being played with Media Player, the display destination cannot be switched using [Fn]+[F3]	The display destination cannot be switched while an MPEG file is playing. Stop playing the MPEG file before switching the display destination.

● **Shutting Down**

Windows cannot be shut down or restarted	If a USB device is connected, try removing it.

Troubleshooting

● Battery Indicator

The red indicator lights.	The battery level is very low (the charge is approx. 9% or less). Connect the AC adaptor. You can use the computer when the battery indicator light is orange. If you do not have an AC adaptor, save your data and power off your computer. After replacing the battery pack with a fully charged one, turn your computer on.
The red indicator blinks	Quickly save your data and power off your computer. Remove the battery pack and disconnect the AC adaptor, then connect them again. If the problem persists, contact Panasonic Technical Support. Possible failure in the battery pack or charging circuit.
The orange indicator blinks	Battery cannot be recharged temporarily because the internal temperature of the battery pack is outside of the acceptable temperature range for recharging. Once the allowable range requirement is satisfied, charging begins automatically. Your computer can be used normally in this state.
The green indicator blinks	Battery pack is discharging to 65% or below in the Battery Lifetime priority mode. (☞ Reference Manual "Battery Power") Do not remove the battery pack while the battery indicator is blinking green.
The battery indicator blinks green and orange alternately	Warming up the system to prevent hard disk drive malfunctions at low temperature. Leave your computer as is. Once the allowable temperature range requirement is satisfied, your computer will start automatically.

● Touch Pad / Touchscreen

The cursor cannot be controlled properly	● If you are using an external mouse, ensure that the external mouse has been connected correctly. ● Restart the computer by using the keyboard (Press 🎗 , U , and select [Restart] with → ← ↑ ↓ , then press Enter). ● If the computer does not respond to keyboard commands, read "No response" (☞ below).
The cursor does not move in scrolling area of the touch pad	When the Microsoft® IntelliMouse™ Wheel mode or the original mode is set for the touch pad, only scroll operations are possible for the right part or bottom part of the touch pad. In this case, cursor operations are possible by using the work surface excluding the right part or bottom part. When no mode is set, the entire surface of the touch pad can be used for cursor operations.
Unable to input using the touch pad	● Has the Setup Utility been used to set [Touch Pad] to [Enable]? ● When external mouse drivers are installed (e.g., Intellimouse), the touch pad may not be used. ● Has the touch pad driver been properly installed?
Unable to point correctly with the stylus included with the computer	As a result of the physical characteristics of the Touchscreen, sometimes the position of the stylus does not match the position of the cursor on the screen. This is not a malfunction. Perform [Calibration] (☞ page 10).
Unable to input by touching the display	● Has the Setup Utility been used to set [Touchscreen] to [Enable]? ● When mouse drivers are installed (i.e. IntelliMouse), the touchscreen is unable to be used. ● Has the touchscreen driver been properly installed?

● Reference Manual

The Reference Manual is not displayed	Is Acrobat Reader installed? If Acrobat Reader is not installed, run [c:\util\reader\acroreader51_enu_full.exe] in [Start] - [Run] to reinstall the program. When installing the program, do not change the installation destination folder. If the destination folder is changed, the Reference Manual cannot be opened from the [Start] menu.

Troubleshooting

Dealing with Problems (Summary)

● **Fast User Switching function**

Some applications may not work properly	● When switching to a different user with the Fast User Switching function, the following problems may occur. • Some applications may not work properly. • Key combinations with the Fn key may not work. • It may not be possible to set the settings of the display. • The wireless LAN cannot be used. • A serial mouse may not work. • Wireless LAN may not work. In this case, log off all users, and try the operation once more. If the problem persists, restart the computer.

● **Others**

No response	● Press Ctrl + Shift + Esc to open Task Manager and close the software application which is not responding. ● After shutting down by sliding the power switch for more than four seconds, slide the power switch to power on and open the application again. If the program no longer works normally, delete the program using the following menu. Then reinstall the program. [Start] - [Control Panel] - [Add or Remove Programs]

Check the Computer's Usage Status

You can use the PC Information Viewer to check the computer's usage status, and use this information when calling technical support office for advice. (If you have not logged on with the administrator authority, some information will be displayed as [Not Found].)

● Running PC Information Viewer

Select [Start] - [All Programs] - [Panasonic] - [PC Information Viewer] - [PC Information Viewer].

Click on the items to display detailed information for each item.
● The [PC Information Viewer] screen is always displayed on top of every other screen.

● Save information to a file

Displayed information can be saved to a text file(.txt).
1 Run the PC Information Viewer and display the information you wish to save.
2 Select [Save].
 · To save the item that is displayed.
  Select [Save only the information displayed] and select [OK].
  Some of the hidden information on the screen, which cannot be shown without scrolling the screen, will be saved, too.
 · To save all items.
  Select [Save all the information] and select [OK].
3 Select the folder, input the file name, then select [Save].

● Save a copy of the screen to a file

You can save a copy of the screen currently being displayed to a file in bitmap format (.bmp).
1 Display the screen you want to save.
2 Press (**Ctrl**) + (**Alt**) + (**F8**) .
 [pcinfo.bmp] will be saved in [My Documents] folder. If [pcinfo.bmp] file already exists, it will be overwritten. (If [pcinfo.bmp] file is set as a "Read-only" or "Hidden" file, the new file cannot be saved.)

┌─ **NOTE** ───┐
● You can also save a copy of the screen to a file using the following procedure.
 Select [Start] - [All Programs] - [Panasonic] - [PC Information Viewer] - [Screen Copy].
● At the time of purchase, the computer is set so that a copy of the screen can be saved to a file by pressing (**Ctrl**) + (**Alt**) + (**F8**) . This setting can be changed using the following procedure.
 1 Run the PC Information Viewer.
  Select [Start] - [All Programs] - [Panasonic] - [PC Information Viewer].
 2 Select [Screen Copy] with the right button, and select [Properties] - [Shortcut].
 3 Move the cursor to [Shortcut key], and press the key to be used for the shortcut.
● Colors are saved in 256 colors.
● When using an Extended Desktop
 A copy of the screen displayed on the primary device will be saved.
└──┘

Troubleshooting

Reinstalling Software

When reinstallation procedure is performed, the contents of the hard disk will be erased. Be sure to back up any critical data on your hard disk to another media or to an external hard disk before running the reinstallation procedure.
The reinstallation procedure will return the computer to its original condition.
Even if a hard disk backup area has been created, this backup area will be erased, and all the backed up data will be lost.
(This is not the case when Windows is reinstalled in the first partition.)
• If you have created partitions for data, the data may be erased or become corrupt as a result of the reinstallation procedure.

Before Reinstallation

● Preparing
• Product Recovery CD-ROM (included)
• USB CD drive Panasonic CF-VDRRT1 or CF-VDRRT2W

● Important
● Before the reinstallation procedure, remove all peripherals (except for the CD drive).
● Be sure the AC adaptor is connected until the reinstallation procedure is completed.

Reinstalling

1 Turn off the computer and connect the CD drive to the computer.

2 Turn on the computer, and press (F2) while [Panasonic] boot screen is displayed.
The Setup Utility will start up.
If the password has been set, enter the Supervisor Password.

3 Write down all of the contents of the Setup Utility and then press (F9).
At the confirmation message, select [Yes] and press (Enter).

4 Select [Boot] menu, then select [USB CD/DVD Drive] and press (F6) until [USB CD/DVD Drive] is at the top of the [Boot] menu.

5 Place the disc number one of the recovery CDs into the CD drive.

6 Press (F10).
At the confirmation message, select [Yes] and press (Enter). The computer will restart.
<When the hard disk backup function has been enabled>
When the message [The Backup function has been enabled. If [Recovery] or [Erase HDD] is executed, the Backup function will be disabled, and your Backup data will be lost.] appears, press (Y).

7 Press (1) to execute [1.[Recovery]].
(You can cancel this operation by pressing (0).)
The License Agreement screen should appear.

8 Press (1) to select [1. Yes, I agree to the provisions above and wish to continue!].
This screen should appear.

```
-----------------------------------------------------------------
Select a number
-----------------------------------------------------------------
                              Reinstalling : Windows(R) XP Professional

1. Reinstall Windows to the whole HDD to factory default.
2. Make two partitions, for the operating system and data. And reinstall
   Windows to the operating system partition.
   (All existing partitions on HDD will be lost.)
3. Reinstall Windows to the first partition.

0. Cancel
-----------------------------------------------------------------
```

9 Make a selection from the menu.

> **NOTE**
> When [2] is selected, the hard disk backup function cannot be enabled because the hard disk has been divided into partitions.

● When selecting [2], enter the basic partition size for the operating system installation and press (Enter).
(The data partition size is the remainder after subtracting the basic partition size.)
● To select [3], the initial partition size must be 6 GB or more of the hard disk size. Reinstallation cannot be performed with a small partition size.
<When the hard disk backup function has been enabled>
If you select [1] or [2], the message [The Backup function has been enabled. If [Recovery] is executed, the Backup function will be disabled, and your Backup data will be lost.] appears. In this case, press (Y).
If the message [Computer must be rebooted in order to execute [Recovery.]] appears, press (R).

10 At the confirmation message , press ⬛Y⬛ .
The operation of reinstallation for the hard disk starts automatically. (The operations take about 20 minutes.)

> **CAUTION**
>
> ● Do not interrupt the reinstallation procedure before completion, for example by turning off the computer or pressing **Ctrl** + **Alt** + **Del** , as this may prevent Windows from starting up, or may cause data to be lost so that the reinstallation procedure cannot be executed.
> ● When a message appears instructing you to insert the next CD, insert the recovery CD showing the next number in the sequence, and then select [OK]. If the message [The media does not contain the correct file] appears, select [OK]. A message will appear instructing you to insert the next CD. Confirm that the proper recovery CD has been inserted by opening the cover of the CD drive and then close the cover, then select [OK].

11 After the reinstallation procedure completes, this screen should appear.
Remove the recovery CD, and then press any key. The computer will be shut down.

```
--------------------------------------------------------------
[Recovery] is complete.
Windows(R) XP Professional install wizard will start after reboot.
After turning off the power, please disconnect the CD/DVD-ROM drive,
and turn the power on again.
--------------------------------------------------------------
```

12 Remove the CD Drive.

13 Turn on the computer, and press **F2** while [Panasonic] boot screen is displayed.
The Setup Utility will start up.
If the password has been set, enter the Supervisor Password.

14 Press **F9** .
At the confirmation message, select [Yes] and press **Enter** . (The Setup Utility settings will return to their default values. Even the security settings with the exception of the password(s) will return to their default values.)

15 Select [Exit] and then select [Save Current Values], then press **Enter** .
At the confirmation message, select [Yes] and press **Enter** .

16 Turn the computer off by sliding the power switch.

> **NOTE**
>
> If additional instructions are included with the computer, be sure to read them. It may be necessary to perform additional operations during the following procedures.

17 Perform the first-time use operation (☞ page 9 step **6** - page 11 step **10**).

18 Run the Setup Utility and change the settings where necessary.

LIMITED USE LICENSE AGREEMENT

THE SOFTWARE PROGRAM(S) ("PROGRAMS") FURNISHED WITH THIS PANASONIC® PRODUCT ("PRODUCT") ARE LICENSED ONLY TO THE END-USER ("YOU"), AND MAY BE USED BY YOU ONLY IN ACCORDANCE WITH THE LICENSE TERMS DESCRIBED BELOW. YOUR USE OF THE PROGRAMS SHALL BE CONCLUSIVELY DEEMED TO CONSTITUTE YOUR ACCEPTANCE OF THE TERMS OF THIS LICENSE.

Matsushita Electric Industrial Co., Ltd. ("MEI") has developed or otherwise obtained the Programs and hereby licenses their use to you. You assume sole responsibility for the selection of the Product (including the associated Programs) to achieve your intended results, and for the installation, use and results obtained therefrom.

LICENSE

A. MEI hereby grants you a personal, non-transferable and non-exclusive right and license to use the Programs in accordance with the terms and conditions stated in this Agreement. You acknowledge that you are receiving only a LIMITED LICENSE TO USE the Programs and related documentation and that you shall obtain no title, ownership nor any other rights in or to the Programs and related documentation nor in or to the algorithms, concepts, designs and ideas represented by or incorporated in the Programs and related documentation, all of which title, ownership and rights shall remain with MEI or its suppliers.

B. You may use the Programs only on the single Product which was accompanied by the Programs.

C. You and your employees and agents are required to protect the confidentiality of the Programs. You may not distribute or otherwise make the Programs or related documentation available to any third party, by time-sharing or otherwise, without the prior written consent of MEI.

D. You may not copy or reproduce, or permit to be copied or reproduced, the Programs or related documentation for any purpose, except that you may make one (1) copy of the Programs for backup purposes only in support of your use of the Programs on the single Product which was accompanied by the Programs. You shall not modify, or attempt to modify, the Programs.

E. You may transfer the Programs and license them to another party only in connection with your transfer of the single Product which was accompanied by the Programs to such other party. At the time of such a transfer, you must also transfer all copies, whether in printed or machine readable form, of every Program, and the related documentation, to the same party or destroy any such copies not so transferred.

F. You may not remove any copyright, trademark or other notice or product identification from the Programs and you must reproduce and include any such notice or product identification on any copy of any Program.

YOU MAY NOT REVERSE ASSEMBLE, REVERSE COMPILE, OR MECHANICALLY OR ELECTRONICALLY TRACE THE PROGRAMS, OR ANY COPY THEREOF, IN WHOLE OR IN PART.

YOU MAY NOT USE, COPY, MODIFY, ALTER, OR TRANSFER THE PROGRAMS OR ANY COPY THEREOF, IN WHOLE OR IN PART, EXCEPT AS EXPRESSLY PROVIDED IN THE LICENSE.

IF YOU TRANSFER POSSESSION OF ANY COPY OF ANY PROGRAM TO ANOTHER PARTY, EXCEPT AS PERMITTED IN PARAGRAPH E ABOVE, YOUR LICENSE IS AUTOMATICALLY TERMINATED.

TERM

This license is effective only for so long as you own or lease the Product, unless earlier terminated. You may terminate this license at any time by destroying, at your expense, the Programs and related documentation together with all copies thereof in any form. This license will also terminate effective immediately upon occurrence of the conditions therefor set forth elsewhere in this Agreement, or if you fail to comply with any term or condition contained herein. Upon any such termination, you agree to destroy, at your expense, the Programs and related documentation together with all copies thereof in any form.

YOU ACKNOWLEDGE THAT YOU HAVE READ THIS AGREEMENT, UNDERSTAND IT AND AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS. YOU FURTHER AGREE THAT IT IS THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN US, WHICH SUPERSEDES ANY PROPOSAL OR PRIOR AGREEMENT, ORAL OR WRITTEN, AND ANY OTHER COMMUNICATIONS BETWEEN US, RELATING TO THE SUBJECT MATTER OF THIS AGREEMENT.

About Intel® software products

The enclosed software products and documentation were developed at private expense, and are provided with "RESTRICTED RIGHTS." Use, duplication or disclosure by the government is subject to restrictions as set forth in FAR 52.227-14 and DFARS 252.227-7013 et. seq. or its successor. The use of this product by the government constitutes acknowledgment of Intel's proprietary rights in the product.

Hard Disk Backup Function

The hard disk backup function creates a backup area (storage area) on the hard disk. This area is to back up (store) hard disk contents or restore backed up contents to their original locations.

By backing up the data on your hard disk to a backup area, you can protect your data from loss or damage resulting from operational errors or other factors. Also, you can back up or restore hard disk contents using this computer alone, without having to use other media or peripheral devices.

At the time of purchase, the hard disk backup function is disabled. If you follow the procedure below to create a backup area, the hard disk backup function will be enabled, and you will be able to back up your data. Note, that once the backup function has been enabled, you will have to perform the reinstallation procedure to disable it again (page 26).

> The hard disk backup function cannot back up or restore data properly if there is a problem with the hard disk when the data is backed up or restored. Note that if an error occurs while data is being restored, whether as a result of an unexpected malfunction, incorrect operation, or other reason, the data in the hard disk (data before restoration) may be lost.
>
> Matsushita Electric Industrial Co., Ltd. will bear no responsibility for any damages suffered by the user (including loss of data) as a result of the use of this function.

Preparing

- Product Recovery CD-ROM (included)
- USB CD drive Panasonic CF-VDRRT1 or CF-VDRRT2W

Before Using a Hard Disk Backup Function

- Disconnect or remove all peripheral devices (except for the CD drive), as the backup area may not be created properly while these devices are connected.
- Be sure the AC adaptor is connected to the computer.
- A backup area cannot be created if the hard disk is already divided into several partitions. Return the computer to its condition at the time of purchase (one partition only), and create the backup area.
- To divide the partition, make the selection when the backup area is created (page 30 step *8*).
- If the partition configuration is changed (partitions created, size changed, etc.) after the backup area has been created, it will no longer be possible to execute the backup function. To change the configuration, it is necessary to return the computer to its condition at the time of purchase, and then create the backup area again.
- The hard disk backup function will only work for the internal hard disk. This function does not work with an external hard disk.
- Backup and restore functions will not operate if the hard disk has been damaged.
- Do not use the NTFS file system compression function, as this may result in insufficient capacity of the backup area.
- If the hard disk malfunctions, it will be impossible to read the data stored on it. We recommend that you also back up important data to a location other than the hard disk (an external hard disk or other media).
- Execute a disk error check using the following procedure.
    1 Select [Local Disk(C:)] with the right button in [Start] - [My Computer], and select [Properties].
    2 Select [Check Now] from [Tools].
    3 In [Check Disk], select [Start] without adding a check mark beside any of the items.
        If a message is displayed indicating that there is an error in the disk, display [Check Disk], and add a check mark for [Automatically fix file system errors] and [Scan for and attempt recovery of bad sectors], select [Start], and check for disk errors again.
- The hard disk backup function does not accommodate dynamic disks. Do not convert the hard disk to a dynamic disk.

29

Hard Disk Backup Function

Create a Backup Area

1 Turn off the computer and connect the CD drive to the computer.

2 Turn on the computer, and press **F2** while [Panasonic] boot screen is displayed.
The Setup Utility will then start.
If a password has been set, enter the Supervisor Password. You cannot register [Boot] menu with a User Password.

3 Select [Boot] menu, then select [USB CD/DVD Drive] and press **F6** until [USB CD/DVD Drive] is at the top of the [Boot] menu.

4 Place disk number one of the recovery CDs into the CD drive.

5 Press **F10**.
At the confirmation message, select [Yes] and press **Enter**.
The computer will restart. If [Enter Password] is displayed during the following procedures, input the Supervisor Password or the User Password.
This screen should appear.

```
-----------------------------------------------------------------
Select a number
-----------------------------------------------------------------
1. [ Recovery   ] Reinstall Windows.
2. [ Erase HDD ] Erase the whole data on HDD for security.
3. [ Backup     ] Enable the Backup function.

0. [ Cancel     ] Cancel.
-----------------------------------------------------------------
```

6 Press **3** to execute [3.Backup].

> **CAUTION**
>
> When dividing the hard disk into partitions
> Do not execute [1. Recovery] to divide the hard disk into partitions. The hard disk backup function cannot be enabled after the hard disk has been partitioned. Use procedure **8** to divide the hard disk.

7 At the confirmation message, press **Y**.

8 Select how to divide the hard disk from the menu.
<To create a backup area and enable the backup function without dividing the hard disk>
Select [1].

[At the time of purchase]	[After the backup area is created]
The usable hard disk area ⟹	The backup area
Can be accessed from Windows (One partition).	Cannot be accessed from Windows.
<To create a backup area and divide hard disk into two partitions, for OS and data>
Select [2], enter the partition size (GB), and press **Enter** .
• You can cancel this operation by pressing **0** .
• The data partition size will be the maximum settable size less the number entered above.
  The maximum settable size will differ depending on models.

[At the time of purchase]		[After the backup area is created]	
The usable hard disk area	⟹		The backup area
	Can be accessed from Windows (Two partitions).	Cannot be accessed from Windows.	
9 When the confirmation message is displayed, press **Y** .
The backup area is then created.

10 When the message [You must reboot in order to enable the Backup function] appears, remove the recovery CD, and press any key to restart the computer. The computer is restarted, then the backup process will begin.

11 When the message [[Backup] is complete] appears, press **Ctrl** + **Alt** + **Del** to restart the computer.

> **CAUTION**
>
> Do not press **Ctrl** + **Alt** + **Del** until the message is displayed.

12 A message will appear advising that a new device has been installed and that the computer must be restarted to enable the settings. Select [Yes] to restart the computer.

> **NOTE**
>
> ● The [Boot] menu in the Setup Utility is set to start up from the CD drive. Change this setting if necessary.
> ● The next time the backup or restore functions are executed, follow the procedure for [Backing Up and Restoring Data] (☞ below).

Backing Up and Restoring Data

> **CAUTION**
>
> ● Before executing the backup function, execute a disk error check (☞ page 29).
> ● Do not interrupt the backup or restore functions before completion, for example by turning off the power or pressing **Ctrl** + **Alt** + **Del**, as this may prevent Windows from starting up, or may cause data to be lost so that the backup and restore functions cannot be executed.

1 Turn on the computer, and press **F2** while [Panasonic] boot screen is displayed.
The Setup Utility will start up.
If a password has been set, enter the Supervisor Password or the User Password.

2 Select [Exit] menu, then select [Hard Disk Backup / Restore] and press **Enter** .
At the confirmation message, select [Yes] and press **Enter** .

Hard Disk Backup Function

3 Select the operation to be executed from the menu.

<To back up hard disk contents to the backup area>

①Press ⓵ to execute [1. [Backup]].

(When dividing the hard disk into two partitions, select the backup method at next screen.)

② At the confirmation message, press Ⓨ.

The backup process will begin.

<To restore backed up contents to the hard disk>

①Press ⓶ to execute [2. [Restore]].

(When data is backed up in two partitions, select the restore method at next screen.)

② At the confirmation message, press Ⓨ.

The restore process will begin.

> **NOTE**
>
> The time required to complete the backup or restore process differs depending on the data volume.

4 When the message [[Backup] is complete] or [[Restore] is complete] is displayed, press
Ctrl + Alt + Del to restart the computer.

- If the backup or restore process was interrupted before completion, for example if the power was turned off, execute the process again.
- When a new device is installed and a message appears advising that the computer must be restarted to enable the settings, select [Yes] to restart the computer.

> **CAUTION**
>
> ● When the hard disk backup function has been enabled, even if a commercial data erasing utility or similar software is used to erase all data from user-accessible area, the backed up data will not be erased. You can use the hard disk data erase utility included in this computer (☞ page 33) to erase all data on the hard disk, including backed up data. Use this hard disk data erase utility before disposing of or transferring ownership of this computer.
> ● Occasionally, the message [#1805 cannot write image file] will be displayed, and the backup function will be interrupted. If this error occurs, execute the backup function again. After this, if the backup function is completed properly, then there is no problem in the hard disk.

● **To disable the hard disk backup function**

Perform the reinstallation procedure. All data in the backup area and the hard disk will be erased.

Conduct steps *1-8* for [Reinstalling Software] (☞ page 26). Select [1] or [2] to execute the reinstallation at the screen for executing the reinstallation.

- When [1] is selected, the hard disk backup function can be disabled.
- When [2] is selected, the hard disk backup function can be disabled, but in this case, because the hard disk has been divided into partitions, the hard disk backup function cannot be re-enabled (☞ page 29).
- When [3] is selected, the hard disk backup function cannot be disabled.

Hard Disk Data Erase Utility

This computer is equipped with a utility for erasing hard disk data.
When disposing of or transferring ownership of this device, erase all data on the hard disk in order to prevent the theft of hard disk data following the steps below.

> The hard disk data erase utility erases data using an "overwriting" method, but there is a possibility that due to malfunctions or other operational errors, data may not be completely erased. There are also specialized devices that may be able to read data that has been erased using this method. If you need to erase highly confidential data, we recommend that you contact a company that specializes in this process. Matsushita Electric Industrial Co., Ltd. will bear no responsibility for losses or damages suffered as a result of the use of this utility.

Preparing

● Product Recovery CD-ROM (included)
● USB CD drive Panasonic CF-VDRRT1 or CF-VDRRT2W

> **NOTE**
> ● Be sure the AC adaptor is connected until the procedure is completed.
> ● This utility can only be used for internal hard disk. It cannot be used to erase data from external hard disks.
> ● This utility cannot erase data from damaged disk.
> ● This utility cannot erase data for specific partitions.
> ● After executing this utility, the computer cannot be booted from the hard disk.
> ● The backup area and the data in the backup area will be erased.

Procedure

1 Turn off the computer and connect the CD drive to the computer.

2 Turn on the computer, and press (F2) while [Panasonic] boot screen is displayed.
The Setup Utility will start up.
If the password has been set, enter the Supervisor Password.

3 Select [Boot] menu, then select [USB CD/DVD Drive] and press (F6) until [USB CD/DVD Drive] is at the top of [Boot] menu.

4 Place the disc number one of the recovery CDs into the CD drive.

5 Press (F10).
At the confirmation message, select [Yes] and press (Enter). The computer will restart.
<When the hard disk backup function has been enabled>
When the message [The Backup function has been enabled. If [Recovery] or [Erase HDD] is executed, the Backup function will be disabled, and your Backup data will be lost.] appears, press (Y).

6 Press (2) to execute [2. [Erase HDD]].
(You can cancel this operation by pressing (0).)
<When the hard disk backup function has been enabled>
When the message [The Backup function has been enabled. If [Erase HDD] is executed, the Backup function will be disabled, and your Backup data will be lost.] appears, press (Y).
When the message [Computer must be rebooted in order to execute [Erase HDD.]] appears, press (R).

7 At the confirmation message, press (Y).

8 When [<<<Start Menu>>>] is displayed, press (Enter).

9 The approximate time required for erasing data will be displayed.
Press (Space).

10 At the confirmation message, press (Enter). The operation of erasing the hard disk starts.
(If necessary, the "hard disk data erase" operation can be cancelled after it has begun by pressing (Ctrl)+(C).
If the operation is cancelled before being completed, a part of data will not be erased.)

11 After the operation is complete:
Under normal conditions, the message [Hard disk data has been deleted.] will be displayed.
If a problem occurred during the operation, an error message will be displayed.

12 Remove the recovery CD, and then press any key to turn off the computer.

13 Remove the CD drive.

Specifications

● **Main Specifications**

LIMITED WARRANTY

For U.S.A.

PANASONIC PERSONAL COMPUTER AND PERIPHERALS LIMITED WARRANTY

Panasonic Computer Solutions Company (referred to as "Panasonic") will repair this product (other than software, which is covered by a separate warranty) with new or rebuilt parts, free of charge in the U.S.A. for three (3) years from the date of original purchase in the event of a defect in materials or workmanship. This warranty includes the AC adaptor but excludes the batteries and all other options and accessories which are covered for a period of one (1) year from the date of purchase.

This warranty is extended solely to the original purchaser. A purchase receipt or other proof of date of original purchase will be required before warranty performance is rendered.

This warranty only covers failures due to defects in materials or workmanship which occur during normal use. It does not cover damage which occurs in shipment or failures which are caused by products not supplied by Panasonic, or failures which result from alteration, accident, misuse, introduction of liquid or other foreign matter into the unit, abuse, neglect, installation, maladjustment of consumer controls, improper maintenance, modification or service by anyone other than a Factory Service Center or authorized Panasonic Service Dealer, or damage that is attributable to acts of God.

Limits and Exclusions:

There are no other express warranties except as listed below.

PANASONIC SHALL NOT BE LIABLE FOR LOSS OF DATA OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE APPLICABLE WARRANTY PERIOD SET FORTH ABOVE. Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state. If a problem with your product develops during or after the warranty period, you may contact our representatives at 1-800-LAPTOP5. If the problem is not handled to your satisfaction, then write to the Consumer Affairs Division at the address indicated below.

SOFTWARE LIMITED WARRANTY

Panasonic Computer Solutions Company (referred to as "Panasonic") warrants to you only that the disk(s) or other media on which the Programs are furnished will be free from defects in materials and workmanship under normal use for a period of sixty (60) days from the date of delivery thereof to you, as evidenced by your purchase receipt.

This is the only warranty Panasonic makes to you. Panasonic does not warrant that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be uninterrupted or error free.

Panasonic's entire liability, and your exclusive remedy under this warranty shall be limited to the replacement, in the United States, of any defective disk or other media which is returned to Panasonic's Authorized Service Center, together with a copy of the purchase receipt, within the aforesaid warranty period.

Anything in the foregoing to the contrary notwithstanding, Panasonic shall have no obligation for any defects in the disk(s) or other media on which the Programs are furnished resulting from your storage thereof, or for defects that have been caused by operation of the disk(s) or other media otherwise than on the Product or in environmental conditions other than those specified by Panasonic by alteration, accident, misuse, abuse, neglect, mishandling, misapplication, installation, maladjustment of consumer controls, improper maintenance, modification of damage that is attributable to acts of God. In addition, Panasonic shall have no obligation for any defects in the disk(s) or other media if you have modified, or attempted to modify any Program.

DURATION OF IMPLIED WARRANTIES, IF ANY, IS LIMITED TO SIXTY (60) DAYS.

PANASONIC ASSUMES NO RISK OF AND SHALL NOT IN ANY CASE BE LIABLE FOR ANY DAMAGES, INCLUDING, WITHOUT LIMITATION, ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES ARISING FROM BREACH OF WARRANTY OR CONTRACT, NEGLIGENCE OR ANY OTHER LEGAL THEORY, INCLUDING, WITHOUT LIMITATION LOSS OF GOODWILL, PROFITS OR REVENUE, LOSS OF USE OF THE PROGRAMS OR PRODUCTS OR ANY ASSOCIATED EQUIPMENT, COST OF CAPITAL, COST OF ANY SUBSTITUTE EQUIPMENT, FACILITIES, SERVICES, DOWNTIME COSTS, OR CLAIMS OF ANY PARTY DEALING WITH YOU FOR SUCH DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

This Limited Warranty will be governed by the laws the State of New York, without regard to its conflict-of-laws rules.

Memo

Memo

As an ENERGY STAR® Partner, Matsushita Electric Industrial Co., Ltd. has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

Outline of the International ENERGY STAR® Office Equipment Program

The international ENERGY STAR® Office Equipment Program is an international program that promotes energy saving through the use of computers and other office equipment. The program backs the development and dissemination of products with functions that effectively reduce energy consumption. It is an open system in which business proprietors can participate voluntarily. The targeted products are office equipment such as computers, displays, printers, facsimiles, and copiers. Their standards and logos are uniform among participating nations.
