Preface

Thank you for choosing W53SA.

Before using your W53SA, be sure to read the W53SA "Basic Manual (this PDF manual)" to ensure proper use of your W53SA. After you have finished reading, keep this PDF manual and the printed manuals (Japanese) in a safe place for your reference whenever you need.

Contact the au shop or the au Customer Service Center for replacements if you lose either of these manuals.

Printed Manuals for W53SA (Japanese)

The W53SA comes with Basic Manual and a Manual.

W53SA Basic Manual

Equivalent to this English PDF manual.

W53SA Manual

English version is not available.

The following manuals are available in the au website:

- Download site for "Basic Manual" (Japanese and English) and "Manual" (Japanese only)
(<http://www.au.kddi.com/torisetsu/index.html>)
- The au online manual (Japanese) for searching by keyword
(<http://www.au.kddi.com/manual/index.html>)

The au online manual (Japanese) is also available from EZweb:

<How to access>  →  (EZweb) → "Top Menu" → "auお客さまサポート (au Customer Support)"
→ "調べる (Information)" → "オンラインマニュアル (Online Manual)".

Check the website of SANYO Electric Co., Ltd. below, for the troubles on your W53SA.

- From W53SA → Press  for more than one second. (SANYO Keitai Planet, in Japanese only)
- From PC → <http://www.sanyo-keitai.com> (SANYO Keitai Arena, in Japanese only)

Note that the shape and typeface used in the screens of this manual may differ from those used in the actual screens, and some screens are partly omitted.

Manners for Using Cellphones

A cellphone always generates weak electric waves while its power is ON. Be considerate of others around you to use your cellphone enjoyably and safely.

In some places, the use of cellphones is prohibited.

- Using cellphones while driving is dangerous and also forbidden by the law.
- Be sure to turn your cellphone OFF before you board airplanes. The use of cellphones onboard airplanes is forbidden by the law.

Consider where to use your cellphone and be careful of the volume of your voice.

- Do not make calls in cinemas, theaters, museums, libraries and other similar places. Turn your cellphone OFF or set it to the manner mode to prevent others around you from being inconvenienced by ring tones for incoming calls or mails.
- When on a crowded street, use your cellphone in places where you do not prevent others from passing.
- When on a train or in a hotel lobby, move to an area where you will not bother others around you.
- Take care not to talk too loudly during conversations.
- When you shoot photos or movies of others with your cellphone, get permission from them.

Electric waves from cellphones may adversely influence medical devices and equipment.

- There may be someone with a pacemaker around you in crowded places such as trains. Turn your cellphone OFF in such places.
- Follow the instructions of hospitals and other medical institutions where it is forbidden to use or carry cellphones.

What You Can Do with W53SA

Pair Function

You can easily call and send mail to your registered Popular Contact.

Page 38

Mail

You can send mails to other cellphones or personal computers.

Page 40

Camera

You can shoot photos or movies and easily send them by E-mail.

Page 52

EZ Navi

You can search various location information with the functions of "EZ Navi Walk", "Passenger Seat Navi", "Evacuate Navi" or "Security Navi".

Page 62

EZweb

You can download Chaku-Uta®, Chaku-Uta-Full®, and wallpapers, etc.

Page 57

EZ Television (1Seg)

You can watch the Digital Terrestrial Broadcasting for Mobile Television Service (1Seg).

Page 64

Manner Mode and Answer Phone

Manner Mode

With Manner Mode, you can set the ringer not to sound so as not to bother the people around you.

Press  for more than one second while the standby screen is displayed.

Page 27

Answer Phone

The caller can leave a message when you cannot answer the phone.

Press  for more than one second while the standby screen is displayed.

Page 23

Check the Power, Reception and Battery!

Keep the "power" ON for normal use.

Keep the power ON to make or answer calls.
Press  for more than one second.

Page 12

You cannot talk on the phone if the "radio wave" is too weak.

It is sometimes difficult to receive the radio wave in some places even within a service area.
"" indicates the reception condition.

Page 12

Be careful of the remaining "battery" power.

If the remaining battery power is too low, you may not be able to use the cellphone properly.
"" indicates the remaining battery power.

Page 12

Do Not Use the Cellphone While Driving

Using cellphone while driving is subject to penalties.

Holding a cellphone in your hand to make phone calls or watching the screen to view E-mails etc., while driving shall be subject to penalties. (The implementation of the revised Road Traffic Law on November 1, 2004)

Calling with a cellphone in your hand

Viewing E-mails and watching the screen

Turn the Power OFF or Set Drive Mode While Driving.

Drive Mode

By setting Drive Mode, you will enable the caller to hear a response message such as "Now driving. I cannot answer the phone right now...(Japanese)", and to store a message in Answer Phone.

Press  while the standby screen is displayed, and use  and  to select "Drive" → "Continuous Mode".

Beware of Junk Mails and One-ring Calls!

If you receive junk mails...

●Mail Filter

Using the mail filter function, you can select to reject E-mails sent from specified addresses and to reject Spoof E-mails.

The following mail functions are available for preventing arrival of junk mails.

- Reject E-mails with "未承諾広告※(Unsolicited advertisement)" in the subject.
- Reject E-mails from specified addresses.
- Reject Spoof E-mails .

Page 47

●Change E-mail Address

You can prevent arrival of junk mail by changing E-mail address.

Page 18

If you receive calls from unknown numbers...

It may be "One-ring Calls" intended to trick you into calling back and accessing unwanted pay programs.Be careful to a call from unknown number.

●Icon for One-Ring Calls

In case of a missed incoming call with a length of 3 seconds orless, **Mis sed** will appear on the incoming call history list, so that you can classify it as a "One-ring Call".

Disaster Message Board Service

When a big scale disaster occurs, you can register your safety information through EZweb. The registered safety information can be referred from anywhere in Japan through EZweb or Internet.

Registering Safety Information

- When a big scale disaster occurs, you can register your safety information such as your condition or comments, from a cellphone, to "災害用伝言板 (Disaster Message Board)" created on EZweb.
- After the registration of your safety information, you can notify by E-mail your family or acquaintances you have previously designated that you registered your safety information on "災害用伝言板 (Disaster Message Board)".

Referring to Safety Information

- You can check the safety information of the person you desire to know about, by entering his/her phone number from EZweb or Internet*1.

*1The safety information can be accessed at <http://dengon.ezweb.ne.jp/> from cellphones of other carriers, PHS or personal computer.

2 Use  to select "Reg./Rel" and press  [Select].

3 Use  to select "YES" and press  [OK].

4 Use  to select the person to register and press  [Select].

Information

- Select an entry from the address book to register as Popular Contact. Before registration, refer to pages 33 to 34, and register the data of the Popular Contact in the address book.
- In case you selected an address book containing multiple phone numbers or e-mail addresses, the phone number and e-mail address as registered under **Usual** in the address book will be recorded.

Making a Call to the Popular Contact

1

Press  while the standby screen is displayed.

Use  to select the person to call.

2

Use  to select "Dial" and press  [Select].

- To send a mail to the popular contact, select "E-mail" or "C-mail". Refer to pages 41 to 43 to create/send an E-mail, or pages 49 to 50 to create/send a C-mail.

Mail

About E-mail (EZweb subscription required)

Application to the EZweb service is required to use E-mail. Contact au shops or the au Customer Service Center if you did not apply to the service at the time of purchase.

Perform the EZweb initialization before using this service. If you have not performed initialization yet, see page 17.

E-mail is a service for sending/receiving mails to/from E-mail compatible cellphones and personal computers via Internet E-mail addresses. Up to 5000 two-byte (10000 one-byte) characters can be sent in an E-mail message. Still images (photos) and moving images (movies) can also be sent via E-mail.

* For sending and receiving E-mails, a packet communication fee is charged depending upon the amount of data transmitted.

Mail

Information

- You can send an E-mail (including Cc and Bcc) to up to 5 E-mail addresses at a time.
- Up to 1000 E-mails (including the number of addresses) can be sent a day.
- Transfer of E-mail with attached data may take time.

Creating and Sending E-mail

1 Press  while the standby screen is displayed.

2 Use  to select "Create New" and press  [Select].

3 Use  to select "(Address)" and press  [Select].

4 Use  to select "Use Address Book" and press  [OK].

● You can also select the address from "Use Records", or enter the address directly from "Address Entry".

Mail

- 5 Use  to select a recipient and press  [Detail].

- 6 Use  to select an E-mail address and press  [select].

- 7 Use  to select "Sb (Subject)" and press  [Select].

- 8 Enter the subject and press  [OK].

9

Use  to select "(Body)" and press  [Select].

10

Enter the body and press  [OK].

11

Press  [Send].

After your E-mail has been sent, the message "Sent" appears on the display.

Reading Received E-mail

When you receive an E-mail:

" New E-Mail" and the number of messages appear on the standby screen.

1

Use  to select " New E-Mail" and press  [Check].

2

Use  to select "メインフォルダ (Main folder)" and press  [Select].

● Icons

-  : Unread mail
-  : Read mail

3

Use  to select the unread E-mail and press  [Display].

How to view received E-mail:

- Received date and time _____
- Sender _____
- Subject _____
- Body text _____

Information

- You can read received E-mail by using the following procedure.
Press  while the standby screen is displayed, select "Inbox"→"メインフォルダ(Main folder)", and then press  [Display].

● Viewing Received Photos

1

Display the received E-mail (page 44) .

Attached data

2

Use  to select the attached data and press  [Select].

Attachment List screen is displayed.

3

Use  to select the attached data to receive and press  [Receive].

4

Press  [Play].

Information

- Depending on the size of the attached data, it can be displayed in the text or played back when you press  [Play] in step 3.
- It may take a short while to send/receive mails depending on the data attached to them or the condition of the radio wave in area you are in.

Replying to Received E-mail

1

Display the received E-mail (page 44) .

2

Press  [Reply].

"Re:" is attached to the beginning of the subject and the body of the original E-mail is quoted.

3

Use  to select "  (Body)" and press  [Select].

● For the subsequent procedure, see steps 10 and later on page 43.

Blocking Junk Mails

To block junk mails, it is recommended to set メールフィルター (Mail Filter). By selecting "サポート設定 (supportive settings)", you can set メールフィルター (Mail Filter) easily by answering the Inquiry on the screen.

● Setting メールフィルター (Mail Filter)

Example: To access "サポート設定 (supportive settings)"

- ① Press  while the standby screen is displayed.
- ② Use  to select "E-Mail Setup" and press  [Select].
- ③ Use  to select "Mail Filter" and press  [Select].
Use  to select "次へ (Next)" and press  [Select].
- ④ Enter your Security Code, press  [OK] and
Select "送信 (Send)" and press  [Select]
- ⑤ Select an item and press  [Select]

Mail

● カンタン設定 (Easy Setup)

サポート設定 (supportive settings)

Sets the filter by answering the inquiry. For the users who would like to check each setting condition.

フィルターレベル (高) (Filter level (Strict))

Rejects mails from PC. For the users who send/receive the mails only between cellphones.

フィルターレベル (中) (Filter level (Medium))

Selects and blocks the persisting senders. For the users who are annoyed by a stalker or a specific junk mailer.

フィルターレベル (低) (Filter level (Normal))

Blocks the Unsolicited Ad Mails or the Spoof E-mails. The filter minimally required.

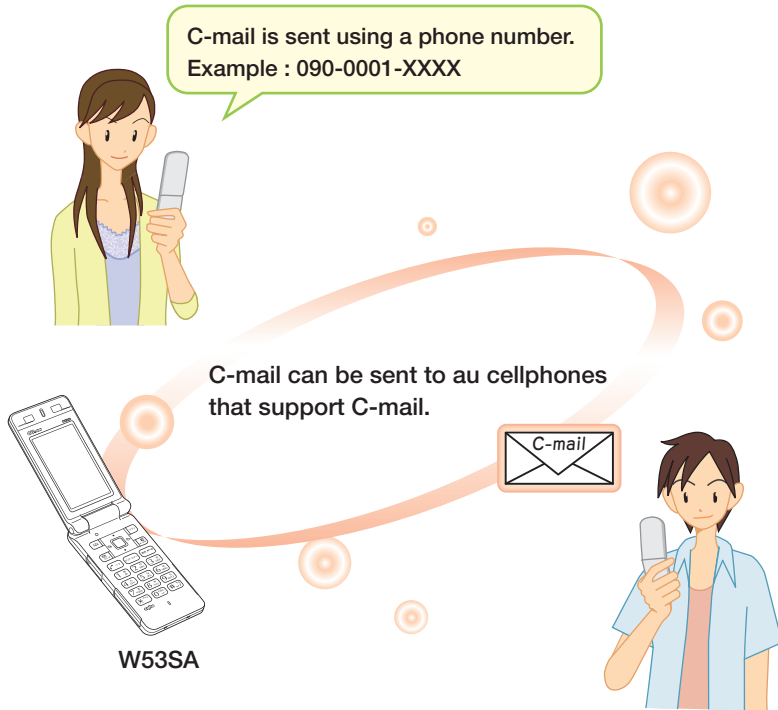

Information

● You can also block junk mails by changing your E-mail address. Refer to pages 18 to 19 to change the E-mail address.

About C-mail

C-mail is a service using phone numbers for sending/receiving mails to/from "C-mail" compatible au cellphones. Each message of C-mail can include up to 50 two-byte (100 one-byte) characters.

* For sending C-mails, a C-mail transmission fee will be charged.

● C-mail Safe Block Function

C-mail safe block is a function to reject C-mails that include a URL (http:// □□□, https:// □□□) or a phone number in the C-mail message text.

This function is turned ON at the time of purchase.

However, the C-mail safe block function can be turned OFF in order to receive C-mails that include a URL or phone number.

Creating and Sending C-mail

1

Press  for more than one second while the standby screen is displayed.

2

Use  to select "Create New" and press  [Select].

Mail

3

Enter the body and press  [OK].

4

Use  to select " (Address)" and press  [Edit].

5

Use  to select
"Use Address Book" and
press  [OK].

- You can also select the phone number from "Use Records", or enter the phone number directly from "Phone No. Entry".

6

Use  to select a recipient
and press  [Detail].

7

Use  to select a phone number
and press  [Select].

8

Press  [Send].

When your C-mail reaches the recipient,
the message "Mail Deliverd" appears
on the display.

Reading Received C-mail

When you receive a C-mail:

" New C-Mail" and the number of messages appear on the standby screen.

1

Use  to select "  New C-Mail" and press  [Check].

2

Use  to select "メインフォルダ (Main folder)" and press  [Select].

● Icons

- : Unread mail
- : Read mail

3

Use  to select the unread C-mail and press  [Display].

Information

- You can read received C-mail by using the following procedure.
Press  for more than one second while the standby screen is displayed, select "Inbox" → "メインフォルダ(Main folder)", and then press  [Display].

Mail

Camera

What You Can Do with Camera

W53SA has 1.97-megapixel camera that allows you to shoot photos or movies. The camera has built-in auto focus function. The auto focus function works when you press the shutter key. Photos and movies which you shot can be sent by E-mail.

Use Shot Photos with W53SA

You can set the photos which you shot as the standby screen or the screen for incoming calls or register them in the address book.

Send Photos/Movies by E-mail (Page 56)

Photos or movies of maximum size 500KB* can be sent by E-mail.

* Mail transfer may take time depending on the condition of the radio wave in the area you are in.

Use The Character Reader (OCR)

Phone numbers, E-mail addresses, URL and Japanese words can be scanned with the camera. You can register the scanned data to the address book, etc.

W53SA has Japanese-English/English-Japanese dictionaries. Translation of the scanned text is available using these dictionaries.

Use Pashamoji® Function

Pashamoji® Memo allows you to transform handwritten messages in a notebook into a photo to attach to an E-mail. Pashamoji® Card is the function that you can create items such as a postcard by combining photos and handwritten messages.

Print Photos You Shot

You can save the photos you shot in microSD™ Memory Card (commercially available) and print them at photo service shops in the same way as the film developing.

How to Hold W53SA

Do not cover the lens with your fingers. Hold W53SA steady with both hands.

■ Upright

Photo : Mobile/Wallpaper/WideWallpaper Size

Movie : Standard (S/M Size)

High Quality (M/L Size)

Long-Time (M/L Size,QVGA Size(Vert))

■ Landscape-Oriented

Photo : 0.3M/1M/2M Size

Movie : Long-time (QVGA Size(Horz),
VGA Size)

Image-Shooting Posture

Open your feet to the breadth of your shoulders and maintain your back and sides firm to avoid jiggling.

To Prevent Jiggling

- Hold W53SA firmly with both hands. Do not move your W53SA after pressing the shutter key until you hear the shutter sound and the preview screen appears.
- Using the Self-Timer allows you to shoot photos without pressing the shutter key, which prevents jiggling.

Shooting Photo

1

Press  for more than one second while the standby screen is displayed.

The view seen through the lens appears.

2

Point the lens at the subject and press  [Shoot].

The auto focus works and you will hear the shutter sound, then a photo is shot.

● Press  to re-shoot the photo.

3

Press  [Save].

● Title of Photo You Shot

The Photo Size is set to "Wallpaper Size" at the time of purchase.

Photo Size*1	Title of a photo	Where to save
Mobile / Wallpaper / Wide Wallpaper Size	year + month + date + time + minute + serial number	"Photo Folder" of W53SA
0.3M / 1M / 2M Size	ST32 + serial number	"DSC Folder" in microSD™ Memory Card*2

Example: The first photo shot at 12:30 on July 27, 2007
 Mobile/Wallpaper/Wide Wallpaper Size: 070727_1230'01
 0.3M/1M/2M Size: ST320001

*1: Press  while the live image is on the display to change the Photo Size.

*2: Photos are saved in "Photo Folder" when a microSD™ Memory Card (commercially available) is not inserted, or there is not enough space available in the microSD™ Memory Card.

Viewing Photos

1

Press  while the standby screen is displayed.

2

Use  to select "Data Folder" and press  [Select].

3

Use  to select "Photo Folder" and press  [Select].
Use  to select a folder containing your desired image and press  [Select].

4

Use  to select an image and press  [Select].

Camera

Attaching Photo to E-mail Message

1 Shoot a photo (page 54) .

2 Press [Mail].
Use [Attach] to select "Attach to E-Mail"
and press [OK].

The Create Mail screen appears
with a taken photo attached.

- For the subsequent procedure, see steps 3 to 11 of on pages 41 to 43.

About EZweb

Application to the EZweb service is required to use the service. Contact au shops or the au Customer Service Center if you did not apply to the service at the time of purchase. Perform the EZweb initialization before using this service. If you have not performed initialization yet, see page 17.

EZweb is a service that provides you with information to enjoy the Internet via cellphones.

You can obtain Chaku-Uta-Full®, the latest news and other contents from information sites.

* When connected to EZweb, a packet communication fee will be charged for data sent or received, corresponding to the amount of data transmitted, regardless of connection time.

Displaying EZ Top Menu

1

Press  while the standby screen is displayed.

Use  to select "EZweb" and use  to select "Top Menu" and press  [Select].

EZトップメニュー (EZ Top Menu)

キーワード検索機能 (Keyword search function)

Provides a search engine for information available by the keyword entry.

カテゴリで探す (Search by category)

Searches for a site by category.

EZサービスで探す (Search by useful EZ services)

Accesses recommended fun and convenient sites.

トップニュース (Top news)

The latest top news topics are delivered by an automatic update.

最新オススメ情報 (Latest recommended information)

Introduces featured topics or contents information of various categories.

デイリーツール (Daily tool)

Provides weather news, fortune-telling, or the useful function of train connection search.

ビジネス&ニュース (Business & News information)

Provides the latest information such as news, weather, or useful information for business.

エリア (Regional information)

You can search the connection of train, map or other local information.

ショッピング&オークション (Shopping & Auction information)

Provides information about shops where you can purchase goods with your cellphone, and the information about the auction where you can sell or buy easily.

ライフ (Useful daily life information)

Provides useful information for daily life.

ホビー&カルチャー (Hobby & Culture information)

Provides the latest information about games, music, books, and information on hobby or entertainment trends.

コミュニティ (Community information)

Provides interesting, convenient and fun information on SNS and blogs, etc.

au My Page

Provides the various information, useful tools, or large storage spaces, which are appropriate for your selection of the services.

au style

Introduces au-recommended information and sites.

とくする情報 (Valuable information)

Offers gifts and free valuable information to EZweb service subscribers.

auお客さまサポート (au Customer Support)

Provides phone bills, application forms, au online manuals, and au announcement.

カンタンアクセス・オープンサイト (Simple Access & Open Site)

Introduces カンタンアクセス・オープンサイト (Simple Access & Open Site).

災害用伝言板 (Disaster Message Board)

Registers/checks the safety information in disasters.

ENGLISH

Introduces English sites.

Information

- It may take some time to display the top menu.
- The layout and contents of the screens in this manual are examples and are subject to change.

Bookmarking Frequently-Accessed Site

1

Display the site to bookmark and press  [Browser Menu].

2

Use  to select "New bookmark" and press  [Select].

3

Press  [Reg].

● Some sites cannot be bookmarked.

Information

● Up to 100 sites can be bookmarked.

Accessing Bookmarked Site

1 Press  while the standby screen is displayed.

Use  to select "EZweb".

2 Use  to select "Bookmark(s)" and press  [Select].

3 Use  to select a site and press  [Jump].

Viewing Charge

Approximate charges for your calls and transmission can be viewed.

1 Press  while the standby screen is displayed and press  twice.

2 Use  to select "Execute" and press  [Select].

Select the item you want to confirm.

Downloading Chaku-Uta®/Chaku-Uta-Full®

1 Display the EZ Top Menu (page 58).

2 Use  to select "カテゴリで探す (Search by category)" and press  [OK].

3 Use  to select "着うた (Chaku-Uta)" or "着うたフル・ビデオクリップ (Chaku-Uta-Full / Video Crip)" and press  [Select].

4 Select the content (information site) to use and download data.

- When you access a site requiring additional information fee, input your EZ Password or Premium EZ Password.
EZ Password/Premium EZ Password is the 4-digit number that you have filled in the application form at the time of purchase.

Information

- The communication fee and information fee are charged for downloading Chaku-Uta® or Chaku-Uta-Full® from the paid contents.
- The layout and contents of the screens in this manual are examples and are subject to change.

EZ Navi (EZweb subscription required)

What You Can Do with EZ Navi

EZ Navi offers convenient location information services (GPS).

* When using EZ Navi service, a packet communication fee will be charged.
Some service will require extra charging of communication fee.

Standby Screen

EZ Service Menu

Use to select "EZnavi".

EZnavi Menu

"Passenger Seat Navi" for drive route confirmation by front passenger

"Passenger Seat Navi" provides the person on the passenger seat with the way to the destination by voice directions and maps.

"Security Navi" to check where your child is

The "Security Navi (安心ナビ)" application is composed of 3 functions: "いつでも位置確認 (Auto Position Search)" (monthly charge), "位置確認メール (Position Search Mail)" (free of charge) and "エリア通知 (Area Message)" (free of charge).

With these functions, you can check the location of an au cellphone that supports Position Search and/or have a message automatically sent to a specified au cellphone when you enter (or are in) or leave (or are out of) a pre-determined area during a preregistered time period.

"EZ Navi Walk" for when you go out

Displays various menus that are useful when you are out.

ナビをする*1 (Navigation)	Provides the navigation (voice directions) to the destination, or you can search for shops or facilities around your present location.
地図を見る*1 (無料) (View Map (free))	You can view a map of your present location or any other location.
乗換検索する*1 (無料)*2 (Search Connection*1 (free)*2)	You can search the connection of train, timetable and railway information.
道路情報を見る (View Traffic Info)	Check real-time traffic information on the major roads all over Japan.
もっとナビウォーク (EZ Navi Walk)	Provides explanations about each setting or search on PC.
インフォメーション (Information)	You can register for memberships or make inquiries.

*1: You can also select the service using your voice ("声de入力 (Voice input)").

*2: A portion of these menus are charged services.

View My Position

The first positioning result is indicated by ★.
After that, your present location will be shown as  in real-time by continuous positioning.

3D Navi

The display is switched to the 3D image at the guidance point or a point near the destination.

"Evacuate Navi" for information about escape routes and way home

Evacuate Area Map

Route Home Map

When map data prepared beforehand are stored in the W53SA, it is possible to use those data in order to find an escape route and the way home in the wider surroundings ("Evacuate Area Map"). *1
Furthermore, on the "Evacuate Navi" EZweb Site, you can choose two points, for example "from work to home", in order to create a "Route Home Map", which will advise you on the route to be followed. Various kinds of contents can be downloaded. *2

*1: As for itinerary indications towards your home, you should first store some GPS information about your home location in the au phone address book; this is required in order to set the target location.

*2: A fee is charged for some contents.

Map: Shobunsha Publications, Inc./Preparation: Asia Air Survey Co.,Ltd.

Information

- As notifications appearing on the screen are standard, please do obey any orders given by police, firemen or local community officials.
- When using "Evacuate Navi", it may take some time before your exact location is acknowledged, among other depending on GPS satellite conditions.
- The layout and contents of the screens in this manual are examples and are subject to change.

EZ Television (1Seg) (EZweb subscription required)

You can watch the Digital Terrestrial Broadcasting for Mobile Television Service "1Seg" with W53SA. (Broadcasting within Japan is only available.) In addition to the television programs, you can enjoy data broadcasting programs.

What You Can Do with EZ Television (1Seg)

Watching television programs/data broadcasting programs

Data Broadcast Operation display

TV Operation display

Recording programs/capturing programs as still images

Use  to select "録画／キャプチャ (Record/Capture)" and press  [選択 (Select)].

● Before Using EZ Television (1Seg)

- Perform initialization before using the service. If you have not performed initialization yet, refer to page 17.
- Any fee for packet or other transmission is not charged when watching EZ Television (1Seg). However, you are charged for packet communication if you access the services such as Program Information or Information Window.
- Any fee for packet or other transmission is not charged when watching data broadcasting programs. However, you are charged for packet communication if you use the interactive service provided on data broadcasting programs or access the information sites of EZweb.
- EZ Television (1Seg) is not available after you terminate the use of your W53SA.
- When the battery level is "  ", EZ Television (1Seg) cannot be activated. If the battery level changes to "  " during use of EZ Television (1Seg), EZ Television ends automatically.
- Deteriorated image, poor image or sound quality or reception failure may occur in mountainous areas, near buildings, in underpasses, in tunnels, or indoors because of poor TV reception. Try the following to improve the reception of the radio wave:
 - Extend the W53SA Antenna (for EZ Television (1Seg)/EZ · FM) to locate the direction for the best reception.
 - When you are indoors, take your W53SA as close to a window as possible.
- For details about 1Seg, see the web sites below.

The Association for Promotion of Digital Broadcasting
<http://www.dpa.or.jp/> (For PC)
<http://www.dpa.or.jp/1seg/k/> (For Cellphones)
- The layout and contents of the screens in this manual are subject to change. Screen images are examples.

Watching EZ Television (1Seg)

When you use EZ Television (1Seg) for the first time, make the necessary settings as follows.

- 1** Press  while the standby screen is displayed. Use  to select "Television" and press  [Select].

- 2** Use  to select "EZ Television" and press  [Select].
Use  to select "EZ TV(1Seg)" and press  [Select].

Precautions screen appears.

- 3** Use  to confirm precautions. Use  to select "OK" and press  [選択 (Select)].

The initial setting screen for EZ Television (1Seg) appears. Follow the on-screen instructions for each setting, and the screen to set channels appears.

- If you select "OK (以後表示しない(No further indication))", the precaution screen does not appear any more.

- 4** Use  to select "オート設定 (Auto-setting)" and press  [選択 (Select)].

- Select "マニュアル設定 (Set manually)" to set the area manually.

5

Use  to select "OK".

Press  [選択 (Select)] and
press  [選択 (Select)].

The data reception area and channels are automatically set and one of the broadcast programs appears on the screen.

- If you select "OK (以降確認しない (No further confirmation))", a confirmation screen for data communication does not appear any more.
- In regions where the Digital Terrestrial Broadcasting for Mobile Television Service "1Seg" is only recently available for portable devices the channel setup may sometimes show some difficulties.

Information

- When starting up EZ Television (1Seg), a characteristic of Digital Broadcasts in which it can take some time to receive images, and especially Data Broadcast data, may appear.
- After starting up EZ Television (1Seg) the first time, the channel last selected during the previous use will be displayed. If you have moved to a different area or are in an area with poor reception, you will need to reset the channel(s).

● To Switch イヤホン (Earphone) and スピーカー (Speaker)

This setting is set to "オート (Auto)" (switch sound output automatically to either the earphones or speaker depending upon whether earphones are attached or not) at the time of purchase.

Ending EZ Television (1Seg)

1

Press  .

Use  to select "Exit"
and press  [OK].

Remote Ctrl Lock

In Case You Lose Your W53SA

The Remote Ctrl Lock function enables you to turn ON the Auto Lock, FeliCa Lock and Address Book Restriction functions through remote operation so that no one else can use your W53SA.

● Setting Remote Ctrl Lock Activation Conditions

The Auto Lock, FeliCa Lock and Address Book Restriction functions are activated when your W53SA receives the specified number of calls from the registered phone number within the specified period of time.

① Press     while the standby screen is displayed.

② Use  to select "ON" and press  [Set].

Enter your Lock No. and press  [OK].

* Lock No. is set to "1234" at the time of purchase.

③ Use  to select "Valid No. List" and press  [Select].

Use  to select "Register New" and press  [Select].

④ Use  to select "Direct Entry" and press  [OK].

Enter a phone number and press  [OK].

* You can also select "Use Address Book" to enter a phone number. Up to 3 phone numbers can be registered.

⑤ Press  [Comp].

⑥ Use  to select "Duration(min)" and press  [Select].

Enter Duration and press  [Set].

* Duration(min) : Sets the time limit to receive the specified number of incoming calls.
The time can be set between 1 and 10 minutes.

⑦ Use  to select "Incm Call Ct" and press  [Select].

Enter Incoming Call Count and press  [Set].

* Incm Call Ct : Sets the number of incoming calls required for activating Remote Auto Lock.
The count can be set between 3 and 10 times.

⑧ Press  [Save].

● Remotely Activating the Auto Lock, FeliCa Lock and Address Book Restriction Functions on the W53SA

1

Call your W53SA in the conditions set for Remote Ctrl Lock.

Remote Ctrl Lock is activated and an announcement to that effect will be played once the specified number of calls is received from the registered phone number within the specified period of time.

● Activating the Lock through the Security Lock Service

Even if you have not set the Remote Ctrl Lock in advance, the Security Lock Service gives you the ability to turn ON the Auto Lock, FeliCa Lock and Address Book Restriction functions remotely by calling the au Customer Center or performing a specified procedure from a PC. This service is available free of charge.

Turning Remote Ctrl Lock ON/OFF by calling the au Customer Center

From au cellphones: 113 area code not required (Toll-Free)

From cellphones except au, or regular phones: ☎ 0077-7-113 (Toll-Free)

(Hours: 24 hours a day)

* Follow the voice guidance instructions.

Turning Remote Ctrl Lock ON/OFF using a PC

Login to MyKDDI (<http://my.kddi.com/>) and perform the procedure indicated on-screen.

* It is necessary to apply for this service before using it for the first time.

(Application is possible even after you may have lost your phone.)

Information

- Remote Ctrl Lock cannot be activated if your W53SA is not powered on or under an area with bad reception, or Emission OFF is set to "Valid".
- "Erase Data" and "Unlock Phone" are both set to "Invalid" at the time of purchase.

Other Features

W53SA is provided with other useful features.

Global Expert

The W53SA supports Global Expert function using an au IC card.

Global Expert is an international roaming service that allows you to connect to the world by simply inserting your au IC card into a GSM mobile phone for overseas use. No special application or daily/monthly charges are needed.

Charges for overseas calls are billed together with monthly domestic calling charges.

Water resistance

The W53SA complies with the IPX5 and IPX7 (JIS Protection Class) water resistance standards. (According to tests conducted by the manufacturer) the W53SA can be used in rainy weather conditions or in humid locations, such as bathrooms and so on.

au My Page

This service saves the data that is on your W53SA, enabling you to backup the contents of your address book, your E-mail, and your Data folder.

EZ News Flash

This information delivery service enables you to check the news and weather, etc., on the standby screen.

Hello Messenger

Hello Messenger is a service that allows you to communicate text, voice and photo freely with au cellphones that support this service using your preferred character.

EZ FeliCa

Just by passing the W53SA over a reader/writer (external devices), you can perform shopping using credit card or electronic money; this way, you can also obtain information about Members' Cards, Point Cards and Coupons.

Decoration Mail

You can create or send e-mails decorated with various font colors, character sizes and flashing characters; you can also insert images and so on.

PC Site Viewer

This feature enables you to view Internet Web Sites created for display on PCs.

au Music Port

Music data downloaded from au Music Port or purchased at LISMO Music Store can be transferred to your W53SA. You can also edit the address book or schedule in your W53SA, or keep and manage the photo or movie data in your PC, which were shot with your W53SA.

after calling "157" on your au cellphone.

Sales : KDDI CORPORATION •

OKINAWA CELLULAR TELEPHONE COMPANY

Manufactured by : SANYO Electric Co., Ltd.

July 2007 Edition

Access the au online
manual from here.

モバイル・リサイクルネットワーク
携帯電話・PHSのリサイクルにご協力ください。

Cellphone and PHS operators collect and recycle unused telephones,
batteries and battery chargers at stores bearing the ♻️ logo
regardless of brand and manufacturer to protect the environment
and reuse valuable resources.
